

Tissue processing can be performed:

1. Manually (hand processing).
2. Automated tissue processing machine (a “tissue processor”):it is used where multiple specimens have to be dealt, it is more convenient and much more efficient than manual processing.

Manual Tissue Processing

British Red Cross Society

Manual Tissue Processing:

Theory and Practice of Histological Techniques John D. Bancroft, 2008-01-01 This leading reference work on histological techniques is an essential and invaluable resource no matter what part you play in histological preparations and applications whether you are a student or a highly experienced laboratory professional
