(Ford) Domestic Automotive Transmission Troubleshooter and Reference Mandy Concepcion, 2011-10 Ford Domestic Automotive Transmission Troubleshooter and Reference A reference and pictorial guide for automotive transmissions Including Ford Lincoln Mercury vehicles By MANDY CONCEPCION The beginnings of this book Ford Version came about after the development of the Transmission Troubleshooter software package which eventually became part of the TransDoctor PC based diagnostic equipment Both of these related products although meant for the professional side of the industry left behind a huge arsenal of data that matched perfectly with the needs of the average consumer DIY and mechanic aficionado We assumed that this information so far as the general public was concerned did not necessitate to be part of a broad software package and therefore could be offered at a lower cost to the people This book covers Ford automotive transmission diagnostics and electronic repair for domestic vehicles The information was amassed during years of field work and research in the automotive industry For this reason the information is presented in a direct hands on approach and skips the basic operation of automotive transmissions If you're trying to discern the basics of automotive automatic transmissions then there are other works that could help you do that This book is meant to be used during real life repair situations and it exposes you to exactly what you need to know to solve or get an in depth knowledge of a specific problem Various concepts are covered such as Transmission DTCs or trouble codes Transmission ID shift solenoid locations component locations electrical and wiring diagrams and finally measurement values for voltage and resistance We hope you enjoy reading this work to gain knowledge and solve specific problem So without further ado enjoy
