Memes The Very Best In Memes English Edition:

Memes of Translation Andrew Chesterman, 2016-02-25 This revised edition of *Memes of Translation* includes updates that relate the book's themes to more recent research in Translation Studies. The book contributes to the debate about whether it is worth seeking a coherent theory of translation by proposing an approach based on norms, strategies and values which are all seen as kinds of memes, i.e. ideas that spread. The meme metaphor allows us to see translation in the context of cultural evolution and also highlights similarities with the philosopher Karl Popper's analysis of another kind of evolution: that of scientific knowledge. A translation is after all itself a theory, a theory about the source text. And as Popper stressed, theories of all kinds are like nets we make in order to catch something of reality, never perfectly but always in the hope of better understanding.

Memes of Translation Andrew Chesterman, 1997-01-01 *Memes of Translation* is a search for coherence in translation theory based on the notion of Memes: ideas that spread, develop and replicate like genes. The author explores a wide range of ideas on translation, mapping the meme pool of translation theory with chapters on translation history, norms, strategies, assessment, ethics and translator training. The aim of the book is to search for a perspective from which the immense variety of ideas about translation can be related. The unifying thread is the philosophy of Karl Popper. The book proposes the beginnings of a Popperian theory of translation based on the fundamental concepts of norms, strategies and values. A key idea is that a translation itself is a theory or hypothesis concerning the source text. This hypothesis is then subjected to testing, refinement and perhaps even rejection, just like any other hypothesis.

Translation and Social Media Communication in the Age of the Pandemic Tong King Lee, Dingkun Wang, 2022-02-23 This collection of essays represents the first of its kind in exploring the conjunction of translation and social media communication with a focus on how these practices intersect and transform each other against the backdrop of the cascading COVID-19 crisis. The contributions in the book offer empirical case studies as well as personal reflections on the topic, illuminating a broad range of themes such as knowledge translation, crisis communications, language policies, cyberpolitics and digital platformization. Together they demonstrate the vital role of translation in the trust-based construction of global public health discourses while accounting for the new medialities that are reshaping the conception, experience and critique of translation in response to the cultural, political and ecological challenges in the post-pandemic world. Written by leading scholars in translation studies, media studies and literary studies, this volume sets to open up new conversations among these fields in relation to the global pandemic and its aftermath. The Open Access version of this book is available at www.taylorfrancis.com and has been made available under a Creative Commons Attribution-NonCommercial-NoDerivatives 4.0 license.

Humour Translation in the Age of Multimedia Margherita Dore, 2020-11-02 This volume seeks to investigate how humour translation has developed since the beginning of the 21st century, focusing in particular on new ways of communication. The authors, drawn from a range of countries, cultures and academic traditions, address and debate how today's globalised communication media

and new technologies are influencing and shaping the translation of humour Examining both how humour translation exploits new means of communication and how the processes of humour translation may be challenged and enhanced by technologies the chapters cover theoretical foundations and implications and methodological practices and challenges They include a description of current research or practice and comments on possible future developments The contributions interconnect around the issue of humour creation and translation in the 21st century which can truly be labelled as the age of multimedia Accessible and engaging this is essential reading for advanced students and researchers in Translation Studies and Humour Studies
