**Moralizing the Market** Yves-Marie Péréon,2018-03 In the late 1960s France attempted a complete overhaul of its financial regulations without being forced to do so by a stock market crash or the collapse of its banking system Out of pure political expediency Gaullist reformers seized the opportunity offered by a minor insider trading case to establish the Commission des Opérations de Bourse COB an independent commission in charge of regulating the securities market Even more surprisingly these staunch defenders of national sovereignty drew their inspiration from an American model the Securities and Exchange Commission Rather than a comparative study of securities regulation in France and the United States the book is an investigation of the dynamics of policy transfer in the field of securities regulation Along the way it reveals a great deal about French and American perceptions of morality and capitalism but also more generally about the exercise of political power in modern democracies the interaction between business and government and the mechanisms of institutional innovation      **The Papers of James Madison** James Madison,1984 The Papers of James Madison project housed at the University of Virginia was established in 1956 to publish annotated volumes of the correspondence and writings of James Madison the Virginia statesman most often remembered for his public service as Father of the Constitution and as fourth president of the United States The published volumes provide accurate texts of Madison's incoming and outgoing correspondence informative notes on textual and subject matters and comprehensive indexes They are incomparably rich sources for students of Madison's life and valuable research tools for those interested in the general history of the period in which Madison lived 1751-1836 The project has collected more than 27 000 copies of documents related to Madison's life including letters essays notes diaries account books ledgers wills legal papers and inventories The project serves the public by translating into print these decaying and often nearly illegible manuscripts thereby preserving them for future generations and making them easier to use The published volumes also make the contents of Madison-related documents the originals of which are housed in some 250 archives worldwide easily accessible to libraries and interested individuals anywhere books travel The Presidential Series covering the years 1809 to early 1817 centers largely on Madison's record as commander in chief during the War of 1812 the first full scale conflict to be waged under the U S Constitution of 1787 Madison's correspondence as president deals with a particularly wide range of concerns national politics international diplomacy and war Indian affairs the construction of the nation's capital even petitions from ordinary citizens for charity and mercy to which Madison responded Publisher      [Current Law Index](#) ,2007      [United States Shipping Board and Emergency](#)
