Equivalence Amanda L. Golbeck, 2017-04-28 Equivalence Elizabeth L Scott at Berkeley is the
 compelling story of one pioneering statistician s relentless twenty year effort to promote the status of women in academe and
 science Part biography and part microhistory the book provides the context and background to understand Scott s
 masterfulness at using statistics to help solve societal problems In addition to being one of the first researchers to work at
 the interface of astronomy and statistics and an early practitioner of statistics using high speed computers Scott worked on
 an impressively broad range of questions in science from whether cloud seeding actually works to whether ozone depletion
 causes skin cancer Later in her career Scott became swept up in the academic women s movement She used her well
 developed scientific research skills together with the advocacy skills she had honed in such activities as raising funds for
 Martin Luther King Jr and keeping Free Speech Movement students out of jail toward policy making that would improve the
 condition of the academic workforce for women The book invites the reader into Scott s universe a window of inspiration
 made possible by the fact that she saved and dated every piece of paper that came across her desk Clark's Horse Review
