**The Ghetto** Ray Hutchison, 2018-04-19 This book discusses more general consideration of marginalized urban spaces and peoples around the globe It considers the question Is the formation and later dissolution of the Jewish ghetto an appropriate model for understanding the experience of other ethnic or racial populations Elite Schooling and Social Inequality Aline Courtois, 2017-11-28 This book is the first significant sociological study of Ireland s elite private schools It takes the reader behind the gates of these secretive institutions and offers a compelling analysis of their role in the reproduction of social inequality in Ireland From the selection process to past pupils union events from the dorms to the rugby pitch the book unravels how these schools gradually reinforce exclusionary practices and socialize their students to power and privilege It tackles the myths of meritocracy and classlessness in Ireland while also providing keys to understanding the social practices and legitimacy of elites By bringing out the voices of past pupils parents and school staff and incorporating vivid ethnographic descriptions the book provides a rare snapshot into a privileged world largely hidden from view It offers a unique contribution to research on elite education as well as to the broader fields of sociology of education and inequality As such it will appeal to researchers practitioners and the general public alike in Ireland and beyond

**Pratiques de la représentation politique** Alice Mazeaud, 2014. Succès du Front national, recul des partis de gouvernement, niveau élevé de l'abstention, la crise de la représentation fut de nouveau un point de passage obligé de l'exercice lectoral des élections municipales et européennes de 2014. Cet ouvrage entend rompre avec les jugements de valeurs qui alimentent cette thématique récurrente du débat public pour clarifier les pratiques de la représentation politique. Le parti pris est ici de réinsérer la représentation politique issue du suffrage universel dans l'espace de la compétition permanente pour la représentation des intérêts sociaux. La lection est ainsi envisagée comme une modalité et une temporalité spécifique mais non exclusive de désignation des représentants et de légitimation des groupes qu'ils prétendent représenter. Ainsi cet ouvrage construit sur la base de trois parties thématiques la représentativité de l'usage du discours et pratiques l'organisation du travail de la représentation politique, la mise en forme des intérêts et des groupes sociaux offre une analyse globale et actualisée de la représentation politique telle qu'elle se pratique face aux demandes sociales et aux logiques de la concurrence politique. Si les travaux sont centrés sur le cas français l'attention accordée aux échelles multiples locale nationale européenne de la représentation politique les contrepoints apportés par des cas étrangers et la variété des terrains et des méthodes d'enquête travaux qualitatifs suivis embarqués permettent un éclairage plus large des rouages de la représentation politique.

**Réalités et représentations de la violence en postcolonies** Jean Godefroy Bidima, Victorien Lavou, 2015. Une approche de la violence coloniale et de ses représentations dans les domaines de la psychologie, de la politique et de la morale.

**Le grand monde parisien** Alice Bravard, 2013. La Grande Guerre, rupture convenue dans l'histoire des lites anciennes, ne semble pas avoir atteint la vitalité du grand monde aristocratique parisien. Les années 1920 poursuivent l'euphorie collective de la Belle Époque et il faut attendre la fin des années 1930 pour voir ce monde dépasser les plans politique et idéologique affaibli sur le plan économique et terni aux yeux des Français. Ainsi le lent déclin des lites anciennes annonce et largement fantasmé depuis la Révolution française s'esquisse-t-il lentement dans l'entre-deux guerres et n'aboutit-il en fait qu'après 1945.

**Penser les mouvements sociaux** Olivier Fillieule, 2010. La sociologie des mouvements sociaux constitue aujourd'hui un champ bien distinct des sciences sociales, l'intersection de la science politique, de la sociologie et de l'histoire. Les turbulentes années 1960 lui ont servi de tremplin aux États-Unis en replaçant la question du conflit social au cœur de démocraties qui avaient voulu l'oublier et en offrant aux chercheurs de multiples terrains pour l'étudier in vivo. L'intérêt pour la
