*Everyday eBay* Ken Hillis, Michael Petit, Nathan Scott Epley, 2012-12-06 *Everyday eBay* is the first scholarly analysis of the internet marketplace that has become a global social cultural and economic phenomenon The eighteen new and classic essays gathered here examine eBay from a wide variety of perspectives as a bellwether of taste and material culture as a rich site of cultural racial and sexual discourse and practice as an emergent media form and as a facilitator of global consumerism From old toys steeped in nostalgia to rare limited edition shoes the contributors demonstrate that value on eBay is never simply about price On any given day more than two million items are listed for sale on eBay from everyday objects to kitsch and collectibles to the truly bizarre Since its debut ten years ago eBay has quickly become a central destination for millions of web browsers According to eBay itself up to 165 000 Americans now make their living by selling through the website and other business analysts project that hundreds of thousands of individuals worldwide now make their living through eBay

*Body Double* Lucy Fischer, 2013-01-15 *Body Double* explores the myriad ways that film artists have represented the creative process In this highly innovative work Lucy Fischer draws on a neglected element of auteur studies to show that filmmakers frequently raise questions about the paradoxes of authorship by portraying the onscreen writer Dealing with such varied topics as the icon of the typewriter the case of the writer director the authoress and the omnipresent infirm author she probes the ways in which films can tell a plausible story while contemplating the conditions and theories of their making By examining many forms of cinema from Hollywood and the international art cinema to the avant garde Fischer considers the gender age and mental or physical health of fictionalized writers the dramatized interaction between artists and their audiences and critics and the formal play of written words and nonverbal images By analyzing such movies as *Adaptation* *Diary of a Country Priest* *Naked Lunch* *American Splendor* and *Irezumi* Fischer tracks the parallels between film author and character looking not for the creative figure who stands outside the text but for the one who stands within it as corporeal presence and alter ego

*The Origin of Brands* Al Ries, Laura Ries, 2009-03-17 What Charles Darwin did for biology Al and Laura Ries do for branding In their exciting new book *The Origin of Brands* the Rieses take Darwin's revolutionary idea of evolution and apply it to the branding process What results is a new and strikingly effective strategy for creating innovative products building a successful brand and in turn achieving business success Here the Rieses explain how changing conditions in the marketplace create endless opportunities to build new brands and accumulate riches But these opportunities cannot be found where most people and most companies look That is in the convergence of existing categories like television and the computer the cellphone and the Internet Instead opportunity lies in the opposite direction in divergence By following Darwin's brilliant deduction that new species arise from divergence of an existing species the Rieses outline an effective strategy for creating and taking to market an effective brand In *The Origin of Brands* you will learn how to Divide and conquer Exploit divergence Use the theories of survival of the fittest and survival of the second best Harness the

power of pruning Using insightful studies of failed convergence products and engaging success stories of products that have achieved worldwide success through divergence the Rieses have written the definitive book on branding The Origin of Brands will show you in depth how to build a great brand and will lead you to success in the high stakes world of branding
