*One Nation Undecided* Peter H. Schuck, 2019-08-06 At a time of deep social and political division along comes a much needed book to steer us toward solutions to five very difficult national problems There could be no better guide for this endeavor than Peter Schuck one of the clearest and most thoughtful legal and policy scholars of this or any generation Robert E Litan author of *Trillion Dollar Economists* s **Excluded** Richard D Kahlenberg, 2023-07-11 An indictment of America s housing policy that reveals the social engineering underlying our segregation by economic class the social and political fallout that result and what we can do about it The last acceptable form of prejudice in America is based on class and executed through state sponsored economic discrimination which is hard to see because it is much more subtle than raw racism While the American meritocracy officially denounces prejudice based on race and gender it has spawned a new form of bias against those with less education and income Millions of working class Americans have their opportunity blocked by exclusionary snob zoning These government policies make housing unaffordable frustrate the goals of the civil rights movement and lock in inequality in our urban and suburban landscapes Through moving accounts of families excluded from economic and social opportunity as they are hemmed in through new redlining that limits the type of housing that can be built Richard Kahlenberg vividly illustrates why America has a housing crisis He also illustrates why economic segregation matters since where you live affects access to transportation employment opportunities decent health care and good schools He shows that housing choice has been socially engineered to the benefit of the affluent and that astonishingly the most restrictive zoning is found in politically liberal cities where racial views are more progressive Despite this there is hope Kahlenberg tells the inspiring stories of growing number of local and national movements working to tear down the walls that inflicts so much damage on the lives of millions of Americans **America's Moment** Rework America, 2015-06-15 It is time for a new conversation Amid the biggest economic transformation in a century the challenge of our time is to make sure that all Americans benefit from the wave of digital revolutions around the world that have permeated and upended modern life Yet today s economic arguments seem stuck We need a new vision of a hopeful future and a new action agenda So many Americans are uncertain about the future How can there be so many paths to opportunity with so few people traveling them As a nation we have to understand what is required to help Americans succeed now and how to prepare our country for what comes next We have been here before A hundred years ago America experienced the greatest economic transformation and technological revolution in its history The transformation of the past twenty years as the world has moved through the information era into the digital age has turned our life and work upside down once again It is a time of tremendous change but also of tremendous possibility Rework America is a group of American leaders who know from experience the challenges we face and the potential solutions In America s Moment they suggest a practical agenda for an exciting future It is illustrated by people who are already showing the way and includes actions Americans can take today in their own

communities preparing people to succeed using the reach of the Internet and data to innovate jobs and to reach new markets all over the world using technology to match employers and workers and transitioning to a no collar working world neither blue collar nor white collar Set against the history of how Americans succeeded once before in remaking their country America's Moment is about the future It describes how the same forces of change technology and a networked world can become tools that can open opportunity to everyone
