Memo For Phase Tourism:

Qualitative Methods in Tourism Research Wendy Hillman, Kylie Radel, 2018-01-05 This volume seeks to expose and illustrate new approaches and thinking in qualitative methods that are being developed and implemented in tourism research. The contributions bring together various qualitative methods and approaches while also providing suggestions for the juxtaposition of qualitative and quantitative methods in mixed methods research. The book has been written with a cross disciplinary approach which provides an insight into the art of research development from business sociology and tourism perspectives. The chapters provide readers with a context and practical application examples for each method. They present a distinctive opportunity for social researchers from a range of disciplines in particular tourism to examine how to adapt the wide variety of qualitative approaches to their particular research needs.

Tourism and Colonization in Indochina (1898-1939) Aline Demay, 2015-01-12 Direct flights to former imperial capitals continued visits to the same tourist sites and the emergence of tours dedicated to the imperial past all pose the question of the heritage of tourism in the former colonies. Lesser known as a field of research, the study of tourism in colonial situations has begun to impose itself over the past decade as an important issue. Interestingly, in the colonial era, tourism was one element of the policies used by the colonial power to highlight its colony. The use of tourist activities for political ends was first confirmed in an October 2 1922 circular composed by the Minister of the Colonies, Albert Sarraut. This circular required all French overseas territories to organize and develop the tourism sector because along with its economic benefits, the tourist of today can be the colonist of tomorrow. This theme, along with knowledge related more specifically to tourism such as the creation of sites and tours and the background of tourists, also contributes to sanitary, environmental and planning questions as well as issues concerning the construction of national sentiment. How did tourism develop in a territory during the period of colonial expansion? How are tourism and colonization related? What connections can be found between the two? Using archives and tourist publications, this book marks an unprecedented work of research into the enactment of tourism in Indochina. It places the establishment of tourism in this former French colony along with the tourism policies of Metropolitan France and the attempts to reproduce the organizations established in the Dutch East Indies and in Japan. The book, which focuses on events in the period from the turn of the twentieth century to the eve of the Second World War, analyses the transfer of European tourism practices to Indochina, their establishment, their integration with policies of valorisation in the 1920s, their spatial consequences and the communication established by the state to promote Indochina as a tourist destination for both Indochinese and foreign tourists.

Travel Writing for Tourism and City Branding Charlie Mansfield, Jasna Potočnik Topler, 2022-12-30 Travel Writing for Tourism and City Branding is an insightful expert led book which provides tourism students with a practice based approach to producing researched literary travel writing on an urban destination using the writing process as a research tool in itself. The book is scientifically supported with full academic references for researchers. On a global basis, city councils and destination

managers are seeking new ways to commission and sponsor professional content authors as part of place branding projects for tourism development. Given the increasing prevalence of such content within the tourism industry, this book provides a cohesive overview of literary travel writing, presenting it as an enquiry process that can be applied by writer-researchers to spaces that have value to them. Travel writing is presented as a methodological practice that researchers can learn and apply to their own projects both in academic settings and in commercial city branding. Examples of literary travel writing are carefully examined throughout, and their affects refracted through further work. Enriched with a wealth of case studies, chapters are presented in such a way that readers can take the work as a model for their own projects. This informative and practical volume will be of great interest to students of tourism marketing, destination marketing, place branding, and travel writing, as well as current creators of commercial tourism marketing content.

Tourism and Poverty Reduction Anna Spenceley, Dorothea Meyer, 2017-10-02 Over the past decade, there have been an increasing number of publications that have analysed and critiqued the potential of tourism to be a mechanism for poverty reduction in less economically developed countries (LEDCs). This book showcases work by established and emerging researchers that provides new thinking and tests previously made assumptions, providing an essential guide for students, practitioners, and academics. This book advances our understanding of the changes and ways forward in the field of sustainable tourism development. Five main themes are illustrated throughout the book: 1. measuring impacts of tourism on poverty; 2. the need to evaluate whether interventions that aim to reduce poverty are effective; 3. how unbalanced power relations and weak governance can undermine efforts; 4. the importance of the private sector's use of pro-poor business practices; and 5. the value of using multidisciplinary and multi-method research approaches. Furthermore, the book shows that academic research findings can be used practically in destinations and how practitioners can benefit from sharing their experiences with academic scholars. This book was based on a special issue and various articles from the *Journal of Sustainable Tourism*.

Exploring Culture and Heritage Through Experience Tourism Rawal, Yashwant Singh, Sinha, Rupa, Mukherjee, Sankar Kumar, Batabyal, Debasish, 2023-10-24 The impact of disasters and crises on culture heritage and religious tourism have been realized in recent years, creating a need for solutions to heal and prevent future damage to these aspects of tourist regions. There is a need for strategies in mitigating these challenges and preserving cultural sites for the future. An emphasis on the importance of sustainability in cultural and heritage tourism, discussions on digitalization, stakeholder participation, and socio-economic livelihoods must be made to properly address this intricate issue. This book explores the development, marketing, and societal implications of cultural and heritage tourism enterprises, showcasing best practices and innovative business models. *Exploring Culture and Heritage Through Experience* is an academic research book that delves into the intricate relationship between tourism, culture, and heritage.
