negotiated by the bilingual author who writes in the shadow of the other language the literary conventions of one may litter his work in the other or the idioms and syntax of one may make their ghostly presence felt in the other But it can equally be a space of violence as in the case of the writer whose whole community has lost its mother tongue and writes under protest in the language of the cultural oppressor or colonizer As the first sustained analysis of the literature produced between French and Breton this book shows us how literary language is affected by such inter cultural tensions and also what it can mean to be caught between cultures

Growing Up in France Colin Heywood, 2007-02-15 How did French people write about their childhood between the 1760s and the 1930s

Voices of the People in Nineteenth-Century France David Hopkin, 2012-04-26 This innovative study of the lives of ordinary people peasants fishermen textile workers in nineteenth century France demonstrates how folklore collections can be used to shed new light on the socially marginalized David Hopkin explores the ways in which people used traditional genres such as stories songs and riddles to highlight problems in their daily lives and give vent to their desires without undermining the two key institutions of their social world the family and the community The book addresses recognized problems in social history such as the division of power within the peasant family the maintenance of communal bonds in competitive environments and marriage strategies in unequal societies showing how social and cultural history can be reconnected through the study of individual voices recorded by folklorists Above all it reveals how oral culture provided mechanisms for the poor to assert some control over their own destinies
