Memorandum Of 2014 Geography November:

Origination Andy Pike, 2015-03-24 Origination The Geographies of Brands and Branding offers innovative theoretical and conceptual frameworks relating to the ways that actors create meaning and value in commodity brands and branding through processes of geographical association Provides innovative conceptualization and theorization to facilitate an understanding of the geographical dimensions of brands and branding Challenges current interpretations of brands as vehicles of homogenization in globalization Establishes the theoretical and conceptual foundations of a more geographically sensitive approach through rigorous empirical examination of the under researched geographical differentiation of commodity brands and branding Presents innovative new research and analysis of the socio spatial biographies of the Newcastle Brown Ale Burberry and Apple brands Forges strong new connections between political and cultural economy approaches within geography Provides a distinctive and incisive conceptual and theoretical framework capable of engaging other branded commodities and their branding in other times and places *The Meritocracy Trap* Daniel

Markovits, 2020-09-08 A revolutionary new argument from eminent Yale Law professor Daniel Markovits attacking the false promise of meritocracy It is an axiom of American life that advantage should be earned through ability and effort Even as the country divides itself at every turn the meritocratic ideal that social and economic rewards should follow achievement rather than breeding reigns supreme Both Democrats and Republicans insistently repeat meritocratic notions Meritocracy cuts to the heart of who we are It sustains the American dream But what if both up and down the social ladder meritocracy is a sham Today meritocracy has become exactly what it was conceived to resist a mechanism for the concentration and dynastic transmission of wealth and privilege across generations Upward mobility has become a fantasy and the embattled middle classes are now more likely to sink into the working poor than to rise into the professional elite At the same time meritocracy now ensnares even those who manage to claw their way to the top requiring rich adults to work with crushing intensity exploiting their expensive educations in order to extract a return All this is not the result of deviations or retreats from meritocracy but rather stems directly from meritocracy's successes This is the radical argument that Daniel Markovits prosecutes with rare force Markovits is well placed to expose the sham of meritocracy Having spent his life at elite universities he knows from the inside the corrosive system we are trapped within Markovits also knows that if we understand that meritocratic inequality produces near universal harm we can cure it When *The Meritocracy Trap* reveals the inner workings of the meritocratic machine it also illuminates the first steps outward towards a new world that might once again afford dignity and prosperity to the American people *The Suicidal State in Somalia* Mohamed Haji Ingiriis, 2016-04-01 This book is a critical reposition of the study of military regimes in Africa Documenting and delving deep into the reign and rule of General Mohamed Siad Barre regime in Somalia from 1969 up to 1991 the book puts emphasis on African agencies ostensibly shaped by external beneficiaries and patrons over what went wrong with Africa after the much awaited post

colonial period It does so by critically engaging with the wider theoretical and conceptual frameworks in African Studies which more often than not tend to attribute the post colonial African State raptures to colonialism The main thesis of the book is that colonialism left Africa on its own space wherein African leaders could have made a difference By putting discrete perspectives into historical context the book circumnavigates through comparative and comprehensive holistic approach to the Siad Barre regime to reveal how colonialism did not produce less than what criminalisation of the State resulted in Somalia This empirical analysis is crucial to understanding the contemporary conundrum facing the Somali world today The argument is that the contemporary conflicts are not only attributable to but also because of the past plunders of the post colonial leaders trained by the departed colonial authorities Employing nuanced analytic concepts and categories the aim of the book is to refine the past to recapture the present and envision the future Framing new ways of analyzing military regimes in Africa begins with re assessment of how the Siad Barre regime was previously approached Marshalling extensive and extraordinary amount of sources the book unveils the intricacies and contradictions of the dictatorship and its impact on the Somali psyche The book locates the evolution of the regime within the wider context of the Cold War political contestation between the East and the West Unparalleled in depth and analysis this book is the first full length scholarly study of the Siad Barre regime systematically explaining the politics and process of the dictatorial rule The historicity of exploring Somali State trajectory entails employing a Braudelien longue dur e approach Thus three interrelated sets of contexts questions inform the study how Siad Barre himself came into power how he ruled and maintained his authoritarian reign over the Somalis and who had assisted him from inside and outside the Somali world **Ukraine Over the Edge**

Hahn,2018-02-08 The Ukrainian crisis that dominated headlines in fall 2013 was decades in the making Two great schisms shaped events one within Ukraine its western and southeastern parts divided along cultural and political lines the other was driven by geopolitical factors Competition between Russia and the West exacerbated Ukraine s divisions This study focuses on the historical background and complex causality of the crisis from the rise of mass demonstrations on Kiev s Maidan Nezalezhnosti Independence Square to the making of the post revolt regime In the context of a new cold war the author sheds light on the role of radical Ukrainian nationalists and neofascists in the February 2014 snipers massacre the ouster of President Viktor Yanukovych and Russia s seizure of Crimea and involvement in the civil war in the eastern region of Donbass Yearbook of International Organizations 2014-2015 (Volume 4) Union Of International Associations,Union of International Associations,2014-09-17 The Yearbook of International Organizations provides the most extensive coverage of non profit international organizations currently available Detailed profiles of international non governmental and intergovernmental organizations IGO collected and documented by the Union of International Associations can be found here In addition to the history aims and activities of international organizations with their events publications and contact details the volumes of the Yearbook include networks between associations biographies of key people involved and extensive
