Memorandum Of Ems Question Paper For 14 November 2014:

Crypto Wars Craig Jarvis, 2020-12-30 The crypto wars have raged for half a century In the 1970s digital privacy activists prophesied the emergence of an Orwellian State made possible by computer mediated mass surveillance The antidote digital encryption The U S government warned encryption would not only prevent surveillance of law abiding citizens but of criminals terrorists and foreign spies ushering in a rival dystopian future Both parties fought to defend the citizenry from what they believed the most perilous threats The government tried to control encryption to preserve its surveillance capabilities privacy activists armed citizens with cryptographic tools and challenged encryption regulations in the courts No clear victor has emerged from the crypto wars Governments have failed to forge a framework to govern the at times conflicting civil liberties of privacy and security in the digital age an age when such liberties have an outsized influence on the citizen State power balance Solving this problem is more urgent than ever Digital privacy will be one of the most important factors in how we architect twenty first century societies its management is paramount to our stewardship of democracy for future generations We must elevate the quality of debate on cryptography on how we govern security and privacy in our technology infused world Failure to end the crypto wars will result in societies sleepwalking into a future where the citizen State power balance is determined by a twentieth century status quo unfit for this century endangering both our privacy and security This book provides a history of the crypto wars with the hope its chronicling sets a foundation for peace

Rights and Parliamentary Systems in Canada and Beyond Emmett Macfarlane, 2025-08-26 Rights and Parliamentary Systems in Canada and Beyond brings together political scientists and legal scholars to explore rights and their limitations along with the governmental and legislative processes affecting them within Canada s parliamentary system It also examines how these elements shape broader institutional relationships under the Canadian Charter of Rights and Freedoms and in comparative perspective This interdisciplinary volume offers valuable in depth analyses of timely issues cases and controversies involving rights and institutional dynamics The book employs an array of methods including legal analysis qualitative case studies content analysis legal theory research interviews and policy analysis With a forward looking perspective Rights and Parliamentary Systems in Canada and Beyond investigates how rights based processes influence specific policies and offers new insights into the framing of rights including administrative law and Aboriginal treaty rights during the COVID 19 pandemic It also explores how aspects of parliamentary democracy affect governments legislators and the public The book ultimately reveals how the institutional relationships at stake operate to protect or fail to protect rights in relation to government policy objectives

Streaming and Copyright Law Lasantha Ariyaratna, 2022-09-05 This book examines the challenges posed to Australian copyright law by streaming from the end user perspective It compares the Australian position with the European Union and United States to draw lessons from them regarding how they have dealt with streaming and copyright By critically examining the technological functionality of streaming and the failure of copyright

enforcement against the masses it argues for strengthening end user rights The rising popularity of streaming has resulted in a revolutionary change to how digital content such as sound recordings cinematographic films and radio and television broadcasts is used on the internet Superseding the conventional method of downloading using streaming to access digital content has challenged copyright law because it is not clear whether end user acts of streaming constitute copyright infringement These prevailing grey areas between copyright and streaming often make end users feel doubtful about accessing digital content through streaming It is uncertain whether exercising the right of reproduction is appropriately suited for streaming given the ambiguities of embodiment and scope of substantial part Conversely the fair dealing defence in Australia cannot be used aptly to defend end users acts of streaming digital content because end users who use streaming to access digital content can rarely rely on the defence of fair dealing for the purposes of criticism or review news reporting parody or satire or research or study When considering a temporary copy exception end users are at risk of being held liable for infringement when using streaming to access a website that contains infringing digital content even if they lack any knowledge about the content s infringing nature Moreover the grey areas in circumventing geo blocking have made end users hesitant to access websites through streaming because it is not clear whether technological protection measures apply to geo blocking End users have a severe lack of knowledge about whether they can use circumvention methods such as virtual private networks to access streaming websites without being held liable for copyright infringement Despite the intricacies between copyright and access to digital content the recently implemented website blocking laws have emboldened copyright owners while suppressing end users access to digital content This is because the principles of proportionality and public interest have been given less attention when determining website blocking injunctions
