

Tempest Control Rack

The Tempest Control Rack (TCR) is a 3 RU enclosure with an optional retractable 15.6" touchscreen. TCR runs the complete System T control software so acts as a stand-alone control interface for a System T installation. It can be used rack mounted or in studio furniture and offers a complete set of connectivity options for network integration and connection external screens or a Fader Tile.

Tempest Processor Engine

There are two different Engines available: The T80 (offering 800 path capacity) and the T35 (offering 256 path capacity). With up to 3072 inputs and 3072 outputs per engine, System T can handle any large-scale production. Tempest engines can be deployed as mirrored redundant pairs if required.

Fader Tiles & Screen Interfaces

Additional Screen interfaces or Fader Tiles can be connected to a TCR unit to provide extended control. The System T software allows control over the entire console environment including routing, system configuration, audio processing and mixing. System T Fader Tiles can be furniture mounted or desktop units.

SSL Network I/O

SSL Network I/O interfaces bring renowned SSL audio performance to Dante networks. Six different devices offer mic/line analogue, MADI, AES and SDI embed/de-embed capability wherever it is required. System T Control Interfaces and SSL Dante Control Software offer remote control over SSL mic/line I/O across the network.
