Reforming Legislatures Peverill Squire, 2024-06-26 Winner of the 2025 Virginia Gray Book Award APSA Section 22 State Politics and Policy Legislatures are ubiquitous in the American political experience First created in Virginia in 1619 they have existed continuously ever since Indeed they were established in even the most unlikely of places notably in sparsely populated frontier settlements and functioned as the focal point of every governing system devised Despite the ubiquity of state legislatures we know remarkably little about how Americans have viewed them as organizations in terms of their structures rules and procedures But with the rise of modern public opinion surveys in the twentieth century we now have extensive data on how Americans have gauged legislative performance throughout the many years That said the responses to the questions pollsters typically pose reflect partisanship policy and personality Generally respondents respond favorably to legislatures controlled by their own political party and those in power during good economic times Incumbent lawmakers get ratings boosts from having personalities home styles that mesh with those of their constituents These relationships are important indicators of people's thoughts regarding the current performance of their legislatures and legislators but they tell us nothing about attitudes toward the institution and its organizational characteristics This study offers a unique perspective on what American voters have historically thought about legislatures as organizations and legislators as representatives Rather than focusing on responses to surveys that ask respondents how they rate the current performance of lawmakers and legislatures this study leverages the most significant difference between national and state politics the existence of ballot propositions in the latter At the national level Americans have never had any say over Congress's structure rules or procedures In contrast at the state level they have had ample opportunities over the course of more than two centuries to shape their state legislatures The data examined here look at how people have voted on more than 1 500 state ballot propositions targeting a wide array of legislative organizational and parliamentary features By linking the votes on these measures with the public debates preceding them this study documents not only how Americans viewed various aspects of their legislatures but also whether their opinions held constant or shifted over time The findings reported paint a more nuanced picture of Americans attitudes toward legislatures than the prevailing one derived from survey research When presented with legislative reform measures on which concrete choices were offered and decisions on them had to be made the analyses presented here reveal that counter to the conventional wisdom that people loved their representatives but hated the legislature voters usually took charitable positions toward the institution while harboring skeptical attitudes about lawmakers motives and behaviors

The Road to Congress 2004 Sunil Ahuja, Robert E. Dewhirst, 2005 Across the country candidates run for political offices in every election and struggle to win those contests Undoubtedly for some the combat is less grueling than for others But for all candidates seeking an elective office means going through the hoops to win in a primary and then in the general election This book is designed to lead the readers to see

the candidates as individuals struggling to win elections In so doing the authors address a number of questions How do these candidates deal with the whole medley of issues confronting their campaigns What kinds of decisions do they make and how do they do so What is the role of parties issues and candidates in congressional races What about campaign strategies and consultants What of the money and the media At the end of the day based upon a variety of selected races from across the nation our aim in this book is to provide the readers with a detailed understanding of contemporary campaigns and elections in congressional contests at the individual level This is a unique approach In the last decade or so a number of books have regularly provided analyses of contemporary campaigns and elections However these works have used aggregate data to make national generalisations They have examined campaigns and elections from a broad national perspective The authors focus on the individual level instead will not only supplement our understanding of contemporary congressional elections but also show a previously unseen side of these contests The hope is that readers will learn a good deal about how candidates run campaigns and win or lose those contests The focus is strictly on Congress In this book the authors draw upon races for the House and Senate contested in 2004

Prayers in the Precincts John Clifford Green,Mark J. Rozell,Clyde Wilcox,2000 In the wake of the Clinton Lewinsky scandal the Christian Right expected major victories in the 1998 elections Instead many of its allies lost close contests and the movement was seen as a liability in some high profile campaigns In an in depth study of the Christian Right s role in these races leading scholars analyze the role of the movement in 14 key states from Maine to California and address speculations that the movement is fading from the American political scene Christian Right is most influential and it describes the movement s niche in some detail Although each campaign described had its unique characteristics the editors

have drawn some broad conclusions about the 1998 elections While the movement was weak in the areas of candidate recruitment and fundraising the outcome may have also been related to external factors including a broader turnout of typically Democratic constituencies and the country s boredom with the scandal that conservatives had made the centrepiece of their campaign Despite the setbacks of 1998 the contributors argue the Christian Right continues to have an enormous influence on the political dialogue of the country California Voter Information Guide ,2000 Post-Suburbia Jon C. Teafor,2020-02-03 The years shortly after the end of World War II saw the beginnings of a new kind of community that blended the characteristics of suburbia with those of the central city Over the decades these edge cities have become permanent features of the regional landscape Originally published in 1996 The years shortly after the end of World War II saw the beginnings of a new kind of community that blended the characteristics of suburbia with those of the central city Over the decades these edge cities have become permanent features of the regional landscape In Post Suburbia historian Jon Teafor charts the emergence of these areas and explains why and how they developed Teafor begins by describing the adaptation of traditional units of government to the ideals and demands of the changing world along the metropolitan fringe He shows how these post suburban municipalities had to fashion a government that perpetuated the ideals of small scale village life and yet at the same time provided for a large tax base to pay for needed municipal services To tell this story Teafor follows six counties that were among the pioneers of the post suburban world Suffolk and Nassau counties in New York Oakland County Michigan DuPage County Illinois Saint Louis County Missouri and Orange County California Although county governments took on new coordinating functions Teafor concludes the many municipalities along the metropolitan fringe continued to retain their independence and authority Underlying this balance of power was the persistent adherence to the long standing suburban tradition of grassroots rule Despite changes in the economy and appearance of the metropolitan fringe this ideology retained its appeal among post suburban voters who rebelled at the prospect of thorough centralization of authority Thus the fringe may have appeared post suburban but traditional suburban attitudes continued to influence the course of governmental development *The Voter* ,1919 **God at the Grass Roots, 1996** Mark J.
