Sustainable Logistics and Strategic Transportation

Planning Kramberger, Tomaž,Potočan, Vojko,Ipavec, Vesna Mia,2016-03-17 The tactical organization of resources is a vital component to any industry in modern society Effectively managing the flow of materials through various networks ensures that the requirements of customers are met Sustainable Logistics and Strategic Transportation Planning is a pivotal reference source for the latest research on the management of logistics through the lens of sustainability as well as for emerging procedures that are particularly critical to the transportation sector Highlighting international perspectives conceptual frameworks and targeted investigations this book is ideally designed for policy makers professionals researchers and upper level students interested in logistics and transport systems *Current Perspectives on the Value, Teaching, Learning, and Assessment of Design in STEM Education* Jeffrey Buckley,Eva Hartell,Nicolaas Blom,2023-08-25 Design is a central activity within Science Technology Engineering and Mathematics STEM education Within enacted practice design can feature within intended learning outcomes for example in learning to design and it can feature within pedagogical methodologies for example by learning through design Often holding differing disciplinary interpretations such as design as cyclical problem solving iterative design conceptual design or design with or without make understanding the educational merits of the ill defined and open nature of authentic designerly activity is paramount This Research Topic sets out to gain a more nuanced understanding of the value and role s of design within STEM educational contexts This Research Topic focuses on design within STEM educational contexts particularly in terms of teaching learning and assessment The aim is to contribute to the evidential basis which can be used to guide the incorporation of design into educational practice The topic

has two central research objectives The first is to generate evidence regarding what design is in STEM education For example is the ability to design a singular or manifold construct Is the capacity to design or are factors of this ability both learnable and teachable How transferable is designerly knowledge between contexts How do different disciplinary contexts influence the interpretation of design The second is to further our understanding of how best to incorporate design within STEM education contexts For example how much emphasis should be placed on learning to or through design in school How should design be assessed within formal education Where and when is design best incorporated into education In posing these questions the goal of this research topic is to provide scholarly discourse which supports critical reflection and the challenging of assumptions regarding design in education

Mobile Learning in Higher Education in the Asia-Pacific Region Angela Murphy, Helen Farley, Laurel Evelyn Dyson, Hazel Jones, 2017-07-06 If mobile technologies are to be effectively used in education how do we best implement sustainable mobile solutions for teaching and learning The aim of this handbook is to support educators and policy makers who are investing in innovations in digital education to develop effective and sustainable mobile learning solutions for higher education environments Authors from sixteen countries across the Asia Pacific region have collaborated to share their experiences with developing and implementing mobile learning initiatives These projects focus on a variety of aspects of mobile learning innovation from the trial adoption of existing social media platforms on mobile devices and the development of specialised applications or mobile learning systems to the large scale interuniversity implementation of technologies and pedagogies to support mobile learning Each chapter addresses challenges and solutions at one or more levels of mobile learning innovation within the education system encompassing the student perspective the educator perspective technical processes policies and organisational strategy and leadership The book also offers a unique perspective on the integration of mobile learning innovations within the educational political and cultural environments of Asia Pacific countries

Trends in Teaching Experimentation in the Life Sciences Nancy J. Pelaez, Stephanie M. Gardner, Trevor R. Anderson, 2022-05-11 This book is a guide for educators on how to develop and evaluate evidence based strategies for teaching biological experimentation to thereby improve existing and develop new curricula It unveils the flawed assumptions made at the classroom department and institutional level about what students are learning and what help they might need to develop competence in biological experimentation Specific case studies illustrate a comprehensive list of key scientific competencies that unpack what it means to be a competent experimental life scientist It includes explicit evidence based guidelines for educators regarding the teaching learning and assessment of biological research competencies The book also provides practical teacher guides and exemplars of assignments and assessments It contains a complete analysis of the variety of tools developed thus far to assess learning in this domain This book contributes to the growth of public understanding of biological issues including scientific literacy and the crucial importance of evidence based decision making around public policy It will be beneficial to life science instructors biology education researchers and

science administrators who aim to improve teaching in life science departments Chapters 6 12 14 and 22 are available open access under a Creative Commons Attribution 4 0 International License via link springer.com **Microsoft Excel 2000**
