## **The Implementation Of The Common Core State Standards: Its Influence On Writing Curriculum, Instructional Strategies, And Professional Development** Richard R.

Corbett, College of Saint Elizabeth. Office of Graduate Studies, 2014 The purpose of this action research mixed method study was to explore the possible causes of the Silver Lake School Districts low middle school writing scores as determined by the New Jersey Assessment of Skills and Knowledge Since the study coincides with the districts adoption of the English Language Arts Common Core State Standards ELA CCSS the study also considered the alignment of the districts writing curriculum with the ELA CCSS and the professional development required to effectively implement the ELA CCSS The influence of effective instructional writing strategies on students writing proficiency and its relationship with curriculum development was investigated This study which explored how the ELA CCSS will be implemented to support the development of a writing curriculum aligned with effective instructional strategies was guided by the following research questions 1 How

should a local middle school grades 5-8 writing curriculum be constructed to adequately incorporate the CCSS writing standards? 2. What strategies to teach writing are currently used by middle school teachers? 3. What professional development is needed to facilitate an effective transition from the current practice of writing instruction to one that reflects the ELA writing standards found in the CCSS? Qualitative and quantitative data sources were used to inform this study. The qualitative sources included interviews with teachers and district leaders. The focus group was comprised of teachers responsible for content area education. A qualitative comparative analysis considered the association between student writing achievement and instructional strategies. The quantitative data was collected through three online surveys completed by district teachers. By using both quantitative and qualitative data sources, the researcher sufficiently explored and informed the research questions. The findings indicated an inconsistency in writing instruction which may adversely affect student achievement. The successful development of a local writing curriculum requires resources from district leaders that include time, financial support, and ongoing professional learning.

**The Common Core Writing Book, 6-8** Gretchen Owocki, 2016. The practices you will find in this book have been used effectively by many teachers. Here they are altered and redesigned with special attention to the CCSS in a way that maintains the potential for teacher control and decision making in the best interest of learners. Gretchen Owocki. Whether it's developing arguments, writing informational texts, or pulling evidence from literary and informational texts to support their claims, the Common Core asks students to do the hard work of higher-level writing across the content areas. To help with the hard work of teaching, *The Common Core Writing Book 6-8* presents a comprehensive framework of strategies and lessons for enhancing or building a middle school writing curriculum. Within each section, you will find a set of instructional practices, demonstrations, collaborative engagements, and independent applications that allow students to gradually take control of complex thinking and activity. Gretchen Owocki covers not only the English Language Arts standards but all the writing standards for literacy in social studies, science, and technical subjects. She identifies those lessons that work best in content area classrooms, offers suggestions for cross-disciplinary collaboration, and provides common language for teachers across the disciplines. She shares resources and supports such as decision trees that help you differentiate by matching students to lessons, assessment tools to determine writers' needs, instructional strategies including minilessons, dozens of reproducibles including mentor texts, graphic organizers, and planning templates for writers. Effective teaching, writes Gretchen, is about taking note of learners' knowledge, engagement, and responses to instruction and shaping instruction around what is observed. With her *Common Core Writing Book 6-8*, you'll have a robust set of meaningful, authentic lessons and tools for not only teaching well but creating and sustaining engagement so that your writers continue to improve across the year.
