Analysis of Electrical Circuits with Variable Load Regime Parameters A. Penin, 2015-04-07 This book introduces electric circuits with variable loads and voltage regulators It allows to define invariant relationships for various parameters of regime and circuit sections and to prove the concepts characterizing these circuits Generalized equivalent circuits are introduced Projective geometry is used for the interpretation of changes of operating regime parameters Expressions of normalized regime parameters and their changes are presented Convenient formulas for the calculation of currents are given Parallel voltage sources and the cascade connection of multi port networks are described The two value voltage regulation characteristics of loads with limited power of voltage source is considered The book presents the fundamentals of electric circuits and develops circuit theorems It is useful to engineers researchers and graduate students who are interested in the basic electric circuit theory and the regulation and monitoring of power supply systems *Handbook of Multiphase Flow Assurance*

Taras Y. Makogon, 2019-06-04 *Handbook of Multiphase Flow Assurance* allows readers to progress in their understanding of basic phenomena and complex operating challenges The book starts with the fundamentals but then goes on to discuss phase behavior fluid sampling fluid flow properties and fluid characterization It also covers flow assurance impedance deliverability stability and integrity issues as well as hydraulic thermal and risk analysis The inclusion of case studies and references helps provide an industrial focus and practical application that makes the book a novel resource for flow assurance management and an introductory reference for engineers just entering the field of flow assurance Starts with flow assurance fundamentals but also includes more complex operating challenges Brings together cross disciplinary discussions and solutions of flow assurance in a single text Offers case studies and reference guidelines for practical applications
