Capitalists and Conquerors Peter McLaren, 2005-04-07 *Capitalists and Conquerors* is a series of path-breaking essays in the political sociology of education on topics hotly debated within the educational community. In this volume Peter McLaren addresses some of the most daunting political challenges of the current times, including the globalization of capitalism, the United States' drive towards world domination, strategies, tactics, and models of resistance to neoliberalism, and the ravages of empire building. The role of the educator as a social agent and public citizen, the purposes and possibilities of public schooling, and the struggle for socialism. As a Marxist humanist philosopher and social theorist, McLaren is able to offer new philosophical premises and socialist principles for building an alternative to capitalism. The passion, poetry, and fierce political conviction for which McLaren is known is very much present in this volume.
