La Sale Guerre

Jean Doménichino, Jean-Marie Guillon

La Sale Guerre:

The Battlefield Hugh Roberts, 2017-04-25 The violence that has ravaged Algeria has often defied explanation Regularly invoked in debates about political Islam transitions to democracy globalization and the right of humanitarian interference Algeria's tragedy has been reduced to a clash of stereotypes Islamists vs a secular state terrorists vs innocent civilians or generals vs a defenseless society The prevalence of such simplistic representations has disabled public opinion inside as well as outside the country and contributed to the intractability of the conflict This collection of essays offers a radical corrective to Western misconceptions Rejecting the usual tautological approaches of inherent predetermined conflict Hugh Roberts explores the outlook and evolution of the various internal forces as they emerged the Islamists the Berberists the factions within the army and the regime in general and he looks at external interests and actors He explains their strategies and the maneuvers in which they have engaged The resulting analyses illuminate the startling dynamics of the conflict and the real issues at stake and identify the implications not only for Algeria but also for this crucial region Informed by a deep knowledge of Algeria and Algerian history these accessible essays guide the reader through the extraordinary politics of the drama in all its complexity

Remnants of the Franco-Algerian Rupture Mona El Khoury, 2020-09-28 At the end of French colonization in Algeria four categories of people held French citizenship or had strong ties with France European settlers Jews mixed race individuals and Harkis The end of the War of Independence exiled most of them from Algeria traumatized them in various ways and transferred many to metropolitan France *Remnants of the Franco Algerian Rupture* Archiving Postcolonial Minorities examines the legacies of these transnational identities through narratives that dissent from official histories both in France and Algeria This literature takes particular stories of exile and loss and constructs a memory around a Mosaic father figure embodying the native land Algeria Mona El Khoury argues that these filiation narratives create a postcolonial archive a discursive foundation that makes historical minorities visible while disrupting French and Algerian hegemonies El Khoury questions the power of literature to repair history while contending that these literary strategies seek to do justice to the dead Algerian father even as they valorize enduring minority identifications

Imaginative Geographies of Algerian Violence Jacob Mundy, 2015-09-09 The massacres that spread across Algeria in 1997 and 1998 shocked the world both in their horror and in the international community's failure to respond In the years following the violence of 1990s Algeria has become a central case study in new theories of civil conflict and terrorism after the Cold War Such lessons of Algeria now contribute to a diverse array of international efforts to manage conflict from development and counterterrorism to the Responsibility to Protect doctrine and transitional justice With this book Jacob Mundy raises a critical lens to these lessons and practices and sheds light on an increasingly antipolitical scientific vision of armed conflict Traditional questions of power and history that once guided conflict management have been displaced by neoliberal assumptions and methodological formalism In questioning the presumed lessons of 1990s Algeria Mundy shows that the

problem is not simply that these understandings these imaginative geographies of Algerian violence can be disputed He shows that today s leading strategies of conflict management are underwritten by and so attempt to reproduce their own flawed logic Ultimately what these policies and practices lead to is not a world made safe from war but rather a world made safe for war

Historical Dictionary of Algeria Phillip C. Naylor,2015-05-07 Algeria s strategic regional and global importance continues to grow Its hydrocarbon wealth namely natural gas and oil is impressive and its receipts are crucial to the national economy The European Union is a particularly valued hydrocarbon importer and overall commercial partner The bilateral relationship with France remains problematic and paradoxical Algeria has demanded an apology for the imposition of colonialism but it also recognizes the importance of France economically politically and militarily e g the unrest in the Sahel notably Mali Furthermore Algeria continues to recover from its recent tragic civil strife characterized by terrorism and extremism Its uncertain future given its ageing leadership rentier economy and frustrated youth is a critical concern This fourth edition of *Historical Dictionary of Algeria* covers its history through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has over 700 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about Algeria

Algeria Martin Evans,John Phillips,2008-01-14 After liberating itself from French colonial rule in one of the twentieth century s most brutal wars of independence Algeria became a standard bearer for the non aligned movement By the 1990s however its revolutionary political model had collapsed degenerating into a savage conflict between the military and Islamist guerillas that killed some 200 000 citizens In this lucid and gripping account Martin Evans and John Phillips explore Algeria s recent and very bloody history demonstrating how the high hopes of independence turned into anger as young Algerians grew increasingly alienated Unemployed frustrated by the corrupt military regime and excluded by the West the post independence generation needed new heroes and some found them in Osama bin Laden and the rising Islamist movement Evans and Phillips trace the complex roots of this alienation arguing that Algeria s predicament political instability pressing economic and social problems bad governance a disenfranchised youth is emblematic of an arc of insecurity stretching from Morocco to Indonesia Looking back at the pre colonial and colonial periods they place Algeria s complex present into historical context demonstrating how successive governments have manipulated the past for their own ends The result is a fractured society with a complicated and bitter relationship with the Western powers and an increasing tendency to export terrorism to France America and beyond

Vietnam Max Hastings,2018-10-16 An absorbing and definitive modern history of the Vietnam War from the acclaimed New York Times bestselling author of *The Secret War* Vietnam became the Western world s most divisive modern conflict precipitating a battlefield humiliation for France in 1954 then a vastly greater one for the

United States in 1975 Max Hastings has spent the past three years interviewing scores of participants on both sides as well as researching a multitude of American and Vietnamese documents and memoirs to create an epic narrative of an epic struggle He portrays the set pieces of Dienbienphu the 1968 Tet offensive the air blitz of North Vietnam and also much less familiar miniatures such as the bloodbath at Daido where a US Marine battalion was almost wiped out together with extraordinary recollections of Ho Chi Minh s warriors Here are the vivid realities of strife amid jungle and paddies that killed two million people Many writers treat the war as a US tragedy yet Hastings sees it as overwhelmingly that of the Vietnamese people of whom forty died for every American US blunders and atrocities were matched by those committed by their enemies While all the world has seen the image of a screaming naked girl seared by napalm it forgets countless eviscerations beheadings and murders carried out by the communists The people of both former Vietnams paid a bitter price for the Northerners victory in privation and oppression Here is testimony from Vietcong guerrillas Southern paratroopers Saigon bargirls and Hanoi students alongside that of infantrymen from South Dakota Marines from North Carolina and Huey pilots from Arkansas No past volume has blended a political and military narrative of the entire conflict with heart stopping personal experiences in the fashion that Max Hastings readers know so well The author suggests that neither side deserved to win this struggle with so many lessons for the twenty first century about the misuse of military might to confront intractable political and cultural challenges He marshals testimony from warlords and peasants statesmen and soldiers to create an extraordinary record *Les dockers* Jean Doménichino, Jean-Marie Guillon, 2001 *Le Monde nouveau*, 1923
