 texts these will be sent after the purchase by e mail Possibly please contact emails do not always arrive or end up in the spam
 folder Through the division into three volumes and the many exercises the material can be taught step by step and building
 up so that the readers are effectively introduced to text processing with Word In the second volume you will find Using style
 sheets to rationalize longer texts Handling the style sheets building style sheets setting up long text with styles Create and
 format a table of contents Extended design options Insert graphics Several columns A header and footer Page numbers in the
 header or footer A section change for different paper formats or headers Optimally set up and use Word Set word Set up

shortcuts Word document templates Search and replace Special applications Create form letters labels and envelopes Set up a form Calculations in tables Create macros and more Final remark In the meantime MS Word can do something for almost every type of program writing texts to books or a professional computer set designing graphics or inserting pictures designing title pages with photos as background calculating in tables creating a database and evaluating it as a serial letter with a differentiated salutation As a result MS Word has become one of the most difficult programs because of this variety of functions which is why it is extremely important to be systematic in the training Our three Word volumes prepare optimally and tailored to the application case for dealing with Word Other functions form letters drawing insert graphics table of contents header etc Volume II for advanced including prepared exercise texts these will be sent after the purchase by e mail Possibly please contact emails do not always arrive or end up in *JavaScript Training Manual Classroom in a Book*
