

These fully integrated dishwashers are specially designed for installation under a continuous countertop.

A cabinet matching panel must be custom made for installation on the front of the dishwasher.

To ensure stability, these dishwashers should only be installed under a continuous countertop which is securely fastened to the cabinet base units.

Dimensions:

- 1) For dishwasher height of 890 mm.
- 2) For dishwasher height of 840 mm.

Total height 840-890 mm; height adjustable by approx. 50 mm.

Check that the countertop is sufficiently level in both directions. If not, it should be levelled.

Countertop should be the same thickness at the front and back to provide proper contact with the top surface of the dishwasher. For countertops with overhang at the front, two pieces of wood or a plate should be attached from the underside as shown below. If two pieces of wood are used, the space between them may be filled with rubber sponge, glued to the countertop, for better sound insulation.
