Les Cultures Des Juifs Une Nouvelle Histoire:

Les Cultures des Juifs David BIALE, 2014-07-14 T00:00:00+02:00 Depuis les origines méditerranéennes jusqu'aux carrefours de la modernité en passant par les diversités de la diaspora Les Cultures des Juifs propose une nouvelle histoire du judaïsme du point de vue de la diversité de ses cultures où les langues les coutumes les littératures et les imaginaires se croisent et se recoupent pendant plus de trois millénaires constituant la trame riche et complexe d'une harmonie des singularités L'histoire du judaïsme devient alors une histoire des judaïsmes en relation ou tension constante avec leur fondement religieux et les pressions et pénétrations continues des mondes alentours Cette harmonie entre dispersion et unité continue du texte et ruptures culturelles isolement et assimilation ges d'or et sombres temps l'ité et peuple exil et patrie permet vingt quatre chercheurs français américains et israéliens de dresser le portrait pour les générations venant d'un judaïsme en mouvement conçu comme organisme vivant selon la définition qu'en donne Gershom Scholem

Religion and Secularism in France Today Philippe Portier, Jean-Paul Willaime, 2022-05-02 This volume explores the dynamic life of religion and politics in France The separation of church and state and the autonomy of school education from religion are the two fundamental pillars of France as a secular republic The historical construction of French secularism has been particularly marked by the strong opposition between the state and the Catholic church However the religious disaffiliation of a significant proportion of the French strengthened state secularism which gradually became more consensual despite some persisting tensions in the school context Yet in the last decades several factors have revived public debate on laicity the quarrel over sects and new religious movements controversies over Islam today the second largest religion in France and more recently dispute over bioethics Faced with these challenges laicity as well as the religious groups involved have been changing The authors of this book ranking amongst the best French experts in the study of religion and secularism introduce the reader to a living and lived laicity influenced by the social and religious dynamics of contemporary France They demonstrate that the configurations of French secularism are both more flexible and complex than they appear to be The volume investigates the extent to which the French idea of secularization has been pushed to be more thorough and radical in its interaction with its other European counterparts A key work on French political thought this volume will be of great interest to scholars and researchers of international politics political philosophy political sociology and religion and politics

Legal Practice and Cultural Diversity, 2009 This collection considers how contemporary cultural and religious diversity challenges legal practice Comparative in analysis this study places particular cases in their widest context taking into account international and transnational influences
