**and Traditional Learning in 6-12 Classrooms** Sandra Schamroth Abrams, 2014-09-19 Integrating Virtual and Traditional Learning in 6-12 Classrooms introduces a model of layered literacies as a framework for describing and illustrating how students' digital experiences can inform educational methods. Through the lens of layered literacies, educators can envision opportunities to draw upon adolescents' out-of-school interests and activities to meaningfully integrate digital practices within academic contexts. Such an approach facilitates innovative teaching, inspired learning, and successful pedagogy, and it thoughtfully highlights the role of technology within mandated standards-based instruction in public schools. Combining foundational and contemporary theories supported by data from multiple studies of adolescent learning and honoring teachers and students' experiences and resources, this text helps educators reconceptualize the ways students learn through and with digital texts and negotiate the connection between online and offline spaces. A companion website extends the discussion onto the screen, engaging readers in an intertextual approach to learning that complements the concept of layering literacies across disciplines. With a foreword by Jennifer Rowsell and an afterword by Bill Cope and Mary Kalantzis, it will be of interest to experienced educators and administrators as well as postgraduate, graduate, and undergraduate students of education.

*Teaching Young Adult Literature Today* Judith A. Hayn, Jeffrey S. Kaplan, 2012-03-15 Teaching Young Adult Literature Today introduces the reader to what is current and relevant in the plethora of good books available for adolescents. More importantly, literary experts illustrate how teachers everywhere can help their students become lifelong readers by simply introducing them to great reads: smart, insightful, and engaging books that are specifically written for adolescents. Hayn, Kaplan, and their contributors address a wide range of topics: how to avoid common obstacles to using YAL; selecting quality YAL for classrooms while balancing these with curriculum requirements; engaging disenfranchised readers; pairing YAL with technology as an innovative way to teach curriculum standards across all content areas. Contributors also discuss more theoretical subjects such as the absence of lesbian, gay, bisexual, transgender, and questioning LGBTQ young adult literature in secondary classrooms and contemporary YAL that responds to the changing expectations of digital generation readers who want to blur the boundaries between page and screen.
