Islamic State Michael Griffin, 2015-10-20 This book takes the long view by analysing Islamic State s beginnings in Iraq to their involvement in the Arab Spring and through to the present day The world is watching IS s advance through the Middle East The US risks being drawn into another war in the region despite its experiences in Afghanistan and Iraq IS are creating catastrophic waves across the region but it is still unclear what lies behind its success Michael Griffin uncovers the nature of IS through investigating the myriad of regional players engaged in a seemingly endless power game Saudi Arabia Qatar Turkey and Iraq which have all contributed to the success of IS by supplying arms and funds He foregrounds the story of the uprising against President Assad of Syria the role played by the Free Syrian Army Islamist groups Iran Hezbollah and Russia the chemical weapons attacks in 2013 and the House of Commons vote not to impose a no fly zone over the country

Second Thoughts Armand de Mestral, 2017-01-30 Criticism Doubts Second thoughts Although investor state arbitration ISA has been included in investment agreements between developed and developing countries since the 1960s and provided foreign investors with a kind of private justice against developing world host states it became increasingly controversial in developed countries when it was included in NAFTA in 1993 creating the possibility of ISA claims between and against two developed countries the United States or Canada as well as claims against and by a developing state Mexico A few years later the OECD's attempt to finalize the Multilateral Agreement on Investment was stymied by concerted civil society protest and opposition to ISA and in recent years each new proposed agreement has sparked fresh rounds of protest What engenders the controversy about ISA While ISA's advantage is that it prevents escalation of international conflict by relieving states from feeling obliged to espouse claims of injured investors against foreign governments it is criticized for creating regulatory chill whereby states are reluctant to make necessary public policy reforms for fear that changes to the investment environment will lead to expensive investor claims Are fears of litigation and expensive payouts well founded Can key modifications to the ISA system such as those added to the Comprehensive Economic and Trade Agreement satisfy critics and redeem this system of private justice Is ISA really necessary between developed democracies where an independent and professional judiciary can generally be trusted to decide without fear or favour In *Second Thoughts Investor State Arbitration between Developed Democracies* 16 international investment legal experts have undertaken in depth analyses of ISA's economic political and

social impacts when included in agreements between developed democracies This timely volume appears at a critical moment seeking answers to the crucial questions that will determine the next generation of international investment agreements

What's Left Now? Andrew Hindmoor, 2018-02-02 Our sense of history shapes how we think about ourselves One of the distinguishing features of the left in Britain is that it holds to a remorselessly bleak and miserabilist view of our recent political history one in which Margaret Thatcher's election in 1979 marked the start of a still continuing fall from political grace made evident by the triumph of a free market get what you can neoliberal ideology dizzying levels of inequality social decay rampant individualism state authoritarianism and political corruption The left does not like what has happened to us and it does not like what we have become Andrew Hindmoor argues that this history is wrong and self harming It is wrong because Britain has in many respects become a more politically attractive and progressive country over the last few decades It is self harming because this bleak history undermines faith in politics Post Brexit post Grenfell and post the 2010 2015 and 2017 general elections things may not right now look that great But looked at over the longer haul Britain is a long way from being a posterchild for neoliberalism Left wing ideas and arguments have shaped and continue to shape our politics
