## PURPOSE

This document is designed to assist Louisiana educators in understanding the LEAP 2025 mathematics assessment for grade 8.

### Introduction

All students in grades 3–HS will take the LEAP 2025 mathematics assessments, which provide:

- questions that have been [reviewed by Louisiana educators](#) to ensure their alignment to the [Louisiana Student Standards](#) and appropriateness for Louisiana students;
- measurement of the full range of student performance, including the performance of high- and low-performing students; and
- information for educators and parents about student readiness in mathematics and whether students are “on track” for college and careers.

### Mathematics Vision for Instruction and Assessment

Students in Louisiana are ready for college or a career if they are able to meet college and workplace expectations without needing remediation in mathematics skills and concepts. The [Louisiana Student Standards for Mathematics \(LSSM\)](#) support students to become mathematically proficient by focusing on [three components of rigor](#): conceptual understanding, procedural skill and fluency, and application.
