Life Orientation 2014 Question Paper September Trial

Andrea Monti

Life Orientation 2014 Question Paper September Trial:

The Conflict in Syria and the Failure of International Law to Protect People Globally Jeremy Julian

Sarkin, 2021-11-28 This book explores through the lens of the conflict in Syria why international law and the United Nations have failed to halt conflict and massive human rights violations in many places around the world which has allowed tens of millions of people to be killed and hundreds of millions more to be harmed The work presents a critical socio legal analysis of the failures of international law and the United Nations UN to deal with mass atrocities and conflict It argues that international law in the way it is set up and operates falls short in dealing with these issues in many respects The argument is that international law is state centred rather than victim friendly is to some extent outdated is vague and often difficult to understand and therefore at times hard to apply While various accountability processes have come to the fore recently processes do not exist to assist individual victims while the conflict occurs or the abuses are being perpetrated The book focuses on the problems of international law and the UN and in the context of the many enforced disappearances and arbitrary detentions in Syria why nothing has been done to deal with a rogue state that has regularly violated international law It examines why the responsibility to protect R2P has not been applied and why it ought to be used generally and in Syria It uses the Syrian context to evaluate the weaknesses of the system and why reform is needed It examines the UN institutional mechanisms the role they play and why a civilian protection system is needed It examines what mechanism ought to be set up to deal with the possible one million people who have been disappeared and detained in Syria The book will be a valuable resource for students academics and policy makers working in the areas of public international law international human rights law political science and peace and security studies

The Digital Rights Delusion Andrea

Monti, 2023-03-31 This book examines the ever increasing impact of technology on our lives and explores a range of legal and constitutional questions that this raises It considers the extent to which concepts such as cyberspace and digital rights advance or undermine our understanding of this development and proposes a number of novel approaches to the effective protection of our rights in this rapidly evolving environment Finally it shows how the abuse of the adjective digital has demoted legal rights into subjective and individual claims The work will be of particular interest to scholars of privacy artificial intelligence and free speech as well as policymakers and the general reader
