of classics and related disciplines and of interest to anyone looking for an insight into ancient Greece's most popular hero

The Exemplary Hercules from the Renaissance to the Enlightenment and Beyond, 2021-01-11 The Exemplary Hercules explores the reception of the ancient Greek hero Herakles the Roman Hercules in European culture from the Renaissance to the Enlightenment and beyond Each chapter considers a particular work or theme in detail raising questions about the hero's role as model of the princely ruler and examining how the worthiness of this exemplary type came in time to be subverted

The volume is one of four to be published in the Metaforms series examining the extraordinarily persistent figuring of Herakles Hercules in western culture up to the present day drawing together scholars from a range of disciplines to offer a unique insight into the hero's perennial but changingly problematic appeal Museums & Galleries Yearbook, 2010 *The Museums Journal*, 1904 Indexes to papers read before the Museums Association 1890 1909 Comp by Charles Madeley v 9 p 427 452 **David Ward** David Ward, Stephen Foster, Michael Harrison, 2008 This is an unusual exhibition of an unusual artist whose work has eluded classification often crossing the boundaries of gallery and media through site specific installation and performance It comprises previously unexhibited work by David Ward which has survived the editings of an immaculately ordered studio and has in one way or another remained especially important to him As such it offers an intimate insight into an artist's practice and the preoccupations that have underlain his work over the last forty years

A History of Yorkshire David Hey, 2005 The county of Yorkshire has a varied history This book seeks to capture the diversity of experience within this county The different fortunes of the many regions of Yorkshire from Pennine moors and valley towns to the flats of Holderness from industrialised cities to quiet market towns are a major theme in this book **The Zoological Record**, 2003 The Art World Directory, 2002 *Design & Applied Arts Index*, 1997 **Henry Moore, Sculpting the 20th Century** Dorothy M. Nash, Harriet F. Senie, Alan G. Wilkinson, 2001-01-01 Henry Moore 1898 1986 is arguably one of the most famous and beloved sculptors of the twentieth century yet in recent decades his work has fallen out of favor in the world of contemporary art criticism This handsome book examines this intriguing contradiction and seeks to reassess Moore's crucial contribution to art of the last century Looking at Moore's early engagements with primitivism his 1930s dialogue with abstraction and surrealism and his postwar interest in large scale public sculpture the authors show how the sculptor helped to define some of the most significant aspects of modernism The authors also contextualize within the polemics of early modernism Moore's emphasis on direct carving instead of modeling and the necessary balance between abstraction and what he called the psychological human element Moore's early sculpture largely unfamiliar to the general public is given particular attention enabling the reader to explore the evolution of thematic and formal elements in his work and his ongoing response to different materials Photographs some by Moore himself of over 120 works including plasters
