Redefining Liberal Arts Education in the

Twenty-First Century Robert E. Lockett Jr., 2021-05-28 Contributions by William D Adams Sarah Archino Mario J Azevedo Katrina Byrd Rico D Chapman Helen O Chukwuma Monica Flippin Wynn Tatiana Glushko Eric J Griffin Kathi R Griffin Yumi Park Huntington Thomas M Kersen Robert E Lockett Jr Floyd W Martin Preselfannie W McDaniels Dawn Bishop McLin Lauren Ashlee Messina Byron D Andra Orey Kathy Root Pitts Candis Pizzetta Lawrence Sledge RaShell R Smith Spears Joseph Martin Stevenson Seretha D Williams and Karen C Wilson Stevenson Redefining Liberal Arts Education in the Twenty First Century delves into the essential nature of the liberal arts in America today During a time when the STEM fields of science technology engineering and math dominate the narrative around the future of higher education the liberal arts remain vital but frequently dismissed academic pursuits While STEAM has emerged as a popular acronym the arts get added to the discussion in a way that is often rhetorical at best Written by scholars from a diversity of fields and institutions the essays in this collection legitimize the liberal arts and offer visions for the role of these disciplines in the modern world From the arts pedagogy and writing to social justice the digital humanities and the African American experience the essays that comprise Redefining Liberal Arts Education in the Twenty First Century bring attention to the vast array of ways in which the liberal arts continue to be fundamental parts of any education In an increasingly transactional environment in which students believe a degree must lead to a specific job and set income colleges and universities should take heed of the advice from these scholars The liberal arts do not lend themselves to the capacity to do a single job but to do any job The effective teaching of critical and analytical thinking writing and speaking creates educated citizens In a divisive twenty first century world such a citizenry holds the tools to maintain a free society redefining the liberal arts in a manner that may be key to the American republic

People, Practice, Power Anne B. McGrail, Angel David Nieves, Siobhan Senier, 2022-01-18 An illuminating volume of critical essays charting the diverse territory of digital humanities scholarship The digital humanities

have traditionally been considered to be the domain of only a small number of prominent and well funded institutions. However through a diverse range of critical essays this volume serves to challenge and enlarge existing notions of how digital humanities research is being undertaken while also serving as a kind of alternative guide for how it can thrive within a wide variety of institutional spaces. Focusing on the complex infrastructure that undergirds the field of digital humanities, *People Practice Power* examines the various economic, social and political factors that shape such academic endeavors. The multitude of perspectives comprising this collection offers both a much needed critique of the existing structures for digital scholarship and the means to generate broader representation within the field. This collection provides a vital contribution to the realm of digital scholarly research and pedagogy in acknowledging the role that small liberal arts colleges, community colleges, historically black colleges and universities and other underresourced institutions play in its advancement. Gathering together a range of voices both established and emergent, *People Practice Power* offers practitioners a self reflexive examination of the current conditions under which the digital humanities are evolving while helping to open up new sustainable pathways for its future.
