## Lotic ecosystems

Moving water (rivers, streams)

### Importance of flow

- Rates influence oxygen, temperature, nutrient flux, physical structure, and community structure
- Species adapt to fast, slow, or "flashy" systems

Species have adapted to allow for different flows of water

2 firsts (smallest like creeks) = 1 second order

2 seconds = 1 third order

2 third orders = 1 fourth order (largest like rivers)

### River systems

1. Riffle (fast, shallow)
2. Run (smooth, unbroken)
3. Pool (slow flowing, deep)

## Community organization

Speciation and extinction create the community

## **Lotic Ecosystems Study Guide Answers:**

*Effects of Non-Random Sources of Alteration on Biodiversity and Ecosystem Functioning* Tian Zhao, Chuanbo Guo, Chao Wang, Chunsheng Liu, Paraskevi Manolaki, 2023-11-15 Understanding how biological diversity affects ecosystem functioning is a key question in modern ecology This is of particular importance in the general context of recent global changes caused by human activities such as water abstraction flow regulation shifts in agricultural practices contamination climate changes and biological invasions These changes are affecting biodiversity ecosystem functioning and their complex interactions simultaneously However our ability to understand how genes individuals populations communities and ecosystems may respond to such changes is limited despite ecologists frequently being requested to provide policymakers and managers with predictions Indeed the species that composed biodiversity can establish complex trophic links between them in the ecosystems This structure of food webs is under the permanent constraint of community dynamics which connects species populations communities and ecosystems Therefore the response of food webs to perturbations can help ecologists to better understand the relationship between biological diversity and ecosystem functioning

**Conservation: Waterway Habitat**

**Resources Gr. 5-8** George Graybill, 2009-09-01 Students will become aware of aquatic ecosystems facing severe change around the globe Our resource focuses on recognizing how climate change and human activities are affecting their delicate balances Become an ecologist and list factors in an aquatic ecosystem as biotic or abiotic Visit an aquatic ecosystem near your home and learn as much as you can through careful observations Find out why some aquatic organisms have a hard time adapting to climate change Explore the effects of human activity on aquatic ecosystems Spend some time at your local aquarium to be a part of the aquatic ecosystem Get a sense of what's to come as you look at the rate of extinction of marine species Find out what we can do to restore aquatic dead zones Written to Bloom's Taxonomy and STEAM initiatives additional hands on activities graphic organizers crossword word search comprehension quiz and answer key are also included

Conservation: Waterway Habitat Resources: Conservation: What We Can Do Gr. 5-8 George Graybill, 2017-05-11 This is the chapter slice Conservation What We Can Do Gr 5 8 from the full lesson plan Conservation Waterway Habitat Resources Students will become aware of aquatic ecosystems facing severe change around the globe Our resource focuses on recognizing how climate change and human activities are affecting their delicate balances Become an ecologist and list factors in an aquatic ecosystem as biotic or abiotic Visit an aquatic ecosystem near your home and learn as much as you can through careful observations Find out why some aquatic organisms have a hard time adapting to climate change Explore the effects of human activity on aquatic ecosystems Spend some time at your local aquarium to be a part of the aquatic ecosystem Get a sense of what's to come as you look at the rate of extinction of marine species Find out what we can do to restore aquatic dead zones Written to Bloom's Taxonomy and STEAM initiatives additional hands on activities graphic organizers crossword word search comprehension quiz and answer key are also included
