

Lesson Plan: Discovering Theme Through Shirley Jackson's *The Lottery* with a Classroom Jigsaw

****Lesson intended to be taught after students have read the story.****

Objectives:

- I. Students will be able to define literary theme.
- II. Students will be able to determine a theme of *The Lottery* by analyzing quotes from the story.
- III. Students will be able to connect themes within *The Lottery* to their lives.

Materials:

- Worksheet for each student
- Quote strip for each student (directions on PowerPoint in zip drive)
- Texts of *The Lottery*

Preparation:

- Due to copyright restrictions, full quotes cannot be printed here but directions are included in the accompanying PowerPoint within this zip drive. You will need 1 quote strip for each student to print out as many as one needed for your class.
- Print worksheet (double-sided if possible) for each student.

As students enter the room, distribute 1 quote strip and 1 worksheet per student.

Warm-up:

"In your own words, what is theme?" 2-3 min writing time, then share responses. Work to come up with a class definition for theme and write on the board. Something along the lines of: "the underlying meaning a writer explores in a literary work."

Explanation:

Address class: "In order for us to come to a deeper understanding of what is going on beneath the surface of this dark tale, we will be performing a close reading of several of the story's prominent quotes that deal with tradition and human nature. We will do this by way of a Classroom Jigsaw. When you walked into the room, each of you received a quote. Look at the number on the quote....."

Researching Race in Education Adrienne D. Dixon, 2014-06-01 In traditional educational research race is treated as merely a variable In 1995 Gloria Ladson Billings and William F Tate IV argued that race is under theorized in education and called for educational researchers to pay closer attention to the relationship between race and educational inequity Ladson Billings and Tate 1995 In particular they argued drawing on legal scholar Derrick Bell s notion of Racial Realism Bell 1995 that racialized inequities are not accidental or aberrant rather racialized educational inequities are the result of particular and specific policies and practices that are designed to maintain particular forms of dominance and marginalization More specifically Bell and later Ladson Billings and Tate argue that racial inequity persists despite liberal policies and legislation that were ostensibly designed to eradicate it The Racial Realist perspective takes into the consideration the longevity and history of racism racial inequity and White supremacy in the U S and serves as a mirror to reflect back the limitations of proposed policies and legislation that fail to address those issues In this way Critical Race Theory and the scholars who draw on CRT view our work as an important check and balance in the effort toward racial equality

Teaching History with Big Ideas S. G. Grant, Jill M. Gradwell, 2010-07-16 In the case studies that make up the bulk of this book middle and high school history teachers describe the decisions and plans and the problems and possibilities they encountered as they ratcheted up their instruction through the use of big ideas Framing a teaching unit around a question such as Why don't we know anything about Africa offers both teacher and students opportunities to explore historical actors ideas and events in ways both rich and engaging Such an approach exemplifies the construct of ambitious teaching whereby teachers demonstrate their ability to marry their deep knowledge of subject matter students and the school context in ways that fundamentally challenge the claim that history is boring
