Souvent dépassés par la technicité et la difficulté de se former face à la fragmentation des sujets, ces professionnels ont besoin d'un livre de référence qui crée de la cohésion et rassemble tous les savoirs qu'ils pourront développer par ailleurs. Ce livre assure un rôle de checklist pour le professionnel : référencement publicitaire, web conversion, travail avec les prestataires. Tous les sujets essentiels sont développés. En phase avec la réalité, cet ouvrage permet aux professionnels d'acquiescer les réflexes essentiels du web marketing.

Entre les fleuves III Adelheid Otto, Nele Ziegler, 2024-01-26. Itineraries and route descriptions are among the most outstanding sources for the reconstruction of historical geography. The stages mentioned in texts make it possible to determine the ancient road network in interdisciplinary cooperation between philology and archaeology and to identify ancient toponyms with archaeologically proven settlements dated by excavation or survey. However, routes are rarely the shortest way from A to B but were always determined by certain parameters. What did the landscape that was travelled through look like? Where was water for travellers and pack animals accessible and where could rivers be crossed? How did travellers adapt to the seasonal conditions? And where did they find safe accommodation if there was no settlement? This volume brings together the answers of international experts from various disciplines. In the first part, the general conditions of vegetation, weather, water resources and general requirements for routes and travelling are discussed in five contributions by K. Deckers, M. de Gruchy, H. Reculeau, E. Cancik, Kirschbaum and A. Dietz. Furthermore, IT methods that allow knowledge modelling of itineraries are presented by C. Cruz and M. Poncet. The second part deals with selected itineraries in Upper Mesopotamia during the Middle and Late Bronze Age. A. Tenu, J. L. Montero Fenollos, Francisco Caramelo present a new Middle Assyrian route stage and D. Charpin reconstructs Zimri-Lim's route from the Habur to the Euphrates. N. Ziegler, A. Otto, C. Fink present a new edition of the Old Babylonian Road to Emar, the most elaborate travel description of Mesopotamian written documentation and achieve an advanced reconstruction of the route and the identification of various ancient toponyms, above all of Amī Adad's capital city Ekallatum.
