La Carrière Politique De Sainte Catherine De Sienne Etude Historique:

La carrière politique de sainte Catherine de Sienne. Étude historique afterward DENIS-BOULET MAURICE-DENIS (Noële),1939 **La carrière politique de sainte Catherine de Sienne** Noële Maurice Denis-Boulet,1939 Sanctity and Female Authorship Maria H. Oen,Unn Falkeid,2019-10-10 Birgitta of Sweden Birgitta Birgersdotter 1302 03 1373 and her younger contemporary Catherine of Siena Caterina Benincasa 1347 1380 form the most powerful and influential female duo in European history Both enjoyed saintly reputations in life while acting as the charismatic leaders of a considerable group of followers consisting of clergy as well as mighty secular men and women They are also among the very few women of the Trecento to leave a substantial body of written work which was widely disseminated in their original languages and in translations Copies of Birgitta s *Liber celestis revelacionum* The Heavenly Book of Revelations and compilations of Catherine s letters *Le lettere* prayers *Le orazioni* and her theological work *Il Dialogo della divina Provvidenza* The Dialogue found their way into monastic royal and humanist libraries all over Europe After their deaths Birgitta s and Catherine s respective groups of supporters sought to have them formally canonized In both cases however their political and theological outspokenness orally and in text and their public authority represented obstacles In this comparative study leading scholars from different disciplinary backgrounds offer for the very first time a comprehensive exploration of the lives and activities of Birgitta and Catherine in tandem Particular attention is given to their literary works and the complex process of negotiating their sanctity and authorial roles Above all what the chapters reveal is the many points of connections between two of the most influential women of the Trecento and how they were related to one another by their peers and successors Angels and Earthly Creatures Claire M. Waters,2013-06-15 Texts by for and about preachers from the twelfth to the fourteenth centuries reveal an intense interest in the preacher s human nature and its intersection with his angelic role Far from simply denigrating embodiment or excluding it from consideration these works recognize its centrality to the office of preacher and the ways in which preachers like Christ needed humanness to make their performance of doctrine effective for their audiences At the same time the texts warned of the preacher s susceptibility to the fleshly failings of lust vainglory deception and greed Preaching s problematic juxtaposition of the earthly and the spiritual made images of women preachers real and fictional key to understanding and exploiting the power as well as the dangers of the feminized flesh Addressing the underexamined bodies of the clergy in light of both medieval and modern discussions of female authority and the body of Christ in medieval culture *Angels and Earthly Creatures* reinserts women into the history of preaching and brings together discourses that would have been intertwined in the Middle Ages but are often treated separately by scholars The examination of handbooks for preachers as literary texts also demonstrates their extensive interaction with secular literary traditions explored here with particular reference to Chaucer s *Canterbury Tales* Through a close and insightful reading of a wide variety of texts and figures including Hildegard of Bingen Birgitta of Sweden and Catherine of Siena Waters offers an original examination of the

preacher's unique role as an intermediary standing between heaven and earth between God and people participating in and responsible to both sides of that divide **La Cour Pontificale D'Avignon, 1309-1376** Bernard Guillemain, 1966

Saints, Scholars, and Politicians Mathilde van Dijk, Renée Nip, 2005 Over the past eighteen years gender has become a major analytical tool in medieval studies The purpose of this volume is to evaluate its use and to search for ways in which to improve and enhance its value The authors address the question of how gender relates to other tools of medieval research Several articles criticize the way in which an exclusive focus on gender tends to obscure the impact of other factors for instance class politics economy or the genre in which a source is written Other articles address wrong ways of using gender for instance monolithic or anachronistic views of what constitutes differences between men and women **Revue**
