La Joie Et La Mort:

The Inner Scar Andrew Hussey, 2022-05-16 Since his death in 1962 Georges Bataille has acquired the status of one of the most influential thinkers of the age. The fact that this reputation has been established by the likes of Michel Foucault, Jacques Derrida, Julia Kristeva and Philippe Sollers appears to confirm Bataille as a precursor of the postmodernist condition. Few contemporary accounts of Bataille's thought have however engaged with those aspects of his thinking which are influenced by his interest in mysticism. This is an omission which is all the more striking given that Bataille considered his thought to be not only opposite to all philosophical traditions originating in the Enlightenment but also a form of speculation intricately related to the religious exigencies of the Christian Medieval period. This book presents the first major study in English of how Bataille's mystical practices and texts interact with the outer worlds of politics, social relations and externalised discourse which Bataille sets up as the antipodes of his inner experience. From this starting point, Andrew Hussey argues that the inner experience of limits in Bataille's work, the movement which he terms transgression, is unlike the textual dramas cherished by his postmodernist admirers, a non-metaphorical even visceral event.

L'écriture du bonheur dans le roman contemporain Ruth Amar, 2011-01-18 Through the ages the pursuit of Happiness has been at the heart of the needs and desires each individual would seek to fulfill while as a concept Happiness has always resonated strongly in poetic as well as philosophical, sociological and psychological contexts. But what about Happiness today in a world dominated by technology, driven by productivity and dictated by efficiency? Does Happiness still feature in contemporary fiction in any significant way? Or has it perhaps gone underground, adopting different guises? Would we still call that duty of happiness that Pascal Bruckner saw as present at the second half of the twentieth century a relevant force today? Or has it waned perceptibly? The articles brought together in this volume seek to work out answers to these and similar questions, creatively addressing the imminent risks but also eagerly following up the intriguing possibilities one encounters when interrogating Happiness in the contemporary novel. Originally based on an international conference organized at the University of Haifa, Israel, in May 2010, the volume is structured around the axes we found useful as a basis for the various approaches towards Happiness in Europe and the historical and social events that influenced the writing of Happiness as they defined the 20th century and have impacted on the 21st: the Holocaust, the Soviet dystopia, consumerism, postmodernism, everyday life, the various as yet unarticulated new modes of life they have given rise to and so on. A new writing of happiness then? At the very least, this volume targets the contemporary novel without wanting to solidify works, instead taking into account the fluctuations. Happiness has been subjected to, and the diversity and especially the paradoxes it has created while we have been keen to preserve a precise reading of the texts and have felt compelled to respect and preserve the particular features that make the writings of the authors we focus on stand out. Thème philosophique aussi bien que poétique, sociologique et psychologique, le bonheur défie la mesure de chacun. N'est-il pas vrai que nous autres hommes nous désirons tous être heureux? Platon. Or, dans

notre monde actuel dominé par la technique la recherche outrance du productif et de l'efficacité qu'en est-il du bonheur Est-il encore présent aux critiques romanesques contemporaines Sous quelles formes se présenterait sa recherche Ce devoir de bonheur propre la deuxième moitié du XXe siècle dont parle Pascal Bruckner continue-t-il toujours tre d'actualité S'est-il renforcé ou au contraire s'est-il affaibli Le projet d'un questionnement du bonheur dans le roman contemporain comportait de gros risques mais il offrait en même temps des possibilités stimulantes A la suite du colloque international organisé à l'université de Haifa en mai 2010 les textes réunis dans ce livre cherchent à laborer des éléments de réponse ces questions Le volume offre un état des lieux du bonheur dans le roman depuis 1980 et présente une large diversité d'approches de définitions d'interrogations sur la critique du bonheur sur trois siècles Le recueil s'articule autour d'axes qui ont servi de base aux différentes approches du bonheur en Europe et d'événements historiques et sociaux qui ont pu influencer la critique du bonheur aux différentes périodes du XXe et XXIe siècles telles que l'Holocauste la dystopie en Russie le postmodernisme et le consumérisme le quotidien les différents paradoxes du bonheur les nouveaux modes de vie Nouvelle critique du bonheur Du moins ce volume vise-t-il le contemporain sans figer les œuvres tout en tenant compte des fluctuations du sujet de sa diversité de ses paradoxes surtout tout en conservant la lecture précise des textes et en respectant la particularité de la critique des auteurs traités

Psychologie des premiers chrétiens Gerd Theissen, 2017-11-22 L'extraordinaire destin du christianisme primitif peut s'expliquer à partir d'une étude psychologique du mouvement lancé par Jésus et ses premiers disciples Le succès d'un petit cercle religieux comme il en existait tant à l'époque tient à la manière dont les premiers chrétiens ont su intégrer dans une même communauté des comportements religieux a priori antagonistes dictés par des invitations conjointes rompre avec les hérésies et les respecter Les attitudes très diverses admises dans le christianisme primitif ont permis l'essor d'une communauté plurielle constituée de profils psychologiques très divers poussant plusieurs manières différentes de se situer par rapport à Dieu en brisant des tabous en rejetant son passé et sa famille mais aussi en inscrivant sa croyance dans une sagesse traditionnelle Pour Gerd Theissen une psychologie de la religion permet d'identifier les pulsions individuelles qui ont permis cette diversité Bien davantage que l'Eglise ultérieure les textes du Nouveau Testament offrent un matériau propice à cette lecture processus de conversions miracles glossolalie visions exorcismes et rituels disent beaucoup de choses sur les premiers chrétiens et au-delà sur des comportements religieux universels
