La Fin De La Mondialisation:

2030, la fin de la mondialisation ? Hervé Coutau-Bégarie, 2009-01-01 La crise des subprimes et les meutes de la faim ont révélé ceux qui s'obstinaient à ne pas la voir la fragilité du système international en ce début du XXI^e siècle Les tonnantes succès techniques et économiques ont un coût humain et écologique considérable qui rend possible sinon probable une crise systémique qui remettra en cause la mondialisation Est-il désormais possible d'envisager des scénarios d'évolution moyen terme c'est dire sur les vingt prochaines années Oui au-delà des incertitudes de tous ordres nous disposons tout de même de quelques lignes de force identifiables Hervé Coutau-Bégarie dresse le constat exhaustif de tous les paramètres en jeu pour l'avenir de la France dans le monde un livre d'avertissement pour les prochaines années

La Fin de la mondialisation François Lenglet, 2013-09-18 Les signaux sont chaque jour plus clairs la phase actuelle de mondialisation touche sa fin Né dans les années 1980 avec le système boursier mondial et la chute du mur de Berlin elle a reposé sur une utopie une planète unifiée par le libre change dirigée par le marché et la démocratie Mais aujourd'hui le courant protectionniste remonte Des entreprises notamment américaines relocalisent leurs industries dans leur pays L'OMC tremble Partout le nationalisme déborde François Lenglet dévoile ici que nous sommes à la fin d'un cycle D'ordinaire plus personne n'a honte de protéger son économie et de jouer sur sa monnaie Il ne faut pas regretter la mondialisation Malgré son indéniable effet de rattrapage pour des pays pauvres bien peu en ont profité Avec clarté et humour ce livre décrit le monde qui vient Un univers où les classes moyennes tiendront leur revanche et où le parasitisme des mafias volera en éclats

Ethics and Justice. Éthique et justice Peter Kemp, Noriko Hashimoto, 2017 The main theme of volume 6 of *Eco ethica* is Ethics and Justice which focuses on the idea of justice in a metaphysical social and personal sense Justice is considered as a balance between opposite ambitions in interdependent persons and as equity in legislation but not as blind justice Today it is valuable not only on the national but also on the cosmopolitan level Before it became personal justice the idea of justice was considered metaphysical and social both in European and Chinese culture However in modern times it is often reduced to a moral duty without meta ethical responsibility The last section considers the importance of the philosophy of Paul Ricoeur 1913-2005 for clarifying the idea of justice Series *Eco Ethica* Vol 6 Subject Philosophy Ethics

Anthropologica, 2004 , *The International Legal System in Quest of Equity and Universality* Laurence Boisson de Chazournes, Vera Gowlland-Debbas, 2021-10-18 Georges Abi Saab began his writing and teaching at a time when the process of decolonization and thereafter the quest for emancipation began to make its far reaching impact on the international scene producing significant changes in the international environment both quantitatively in increasing the number of nation States and qualitatively in changing patterns of interests and claims This was bound to result in new pressures on the international legal system itself and in a questioning of the traditional Eurocentric content of international law In his work and teaching Professor Abi Saab viewed the dynamics of international law as a function of two driving forces the emergence of the third world and the sense of injustice In his view the first driving

force the emergence of the third world raised the problem of exclusion exclusion from participation in the elaboration of international law and the decision making process and exclusion as beneficiaries of the resulting rules of international law At the same time this new force introduced diversity into the international scene reflecting the richness of the international community in its different facets This process remains relevant today reflecting the contemporary problem of exclusion of new actors as well as their quest for participation The second driving force the sense of injustice posed a teleological problem for him that of defining community values in order that they capture the different facets of justice whether formal or distributive So long as there is no effective organic structure international law in his view will continue to remain effectiveness oriented reflecting rather than impacting on the structures of power Nevertheless it is undeniable that there is an on going process of development of community values and interests as Georges Abi Saab wrote with reference to international crimes law like all social phenomena is a continuous unfolding a continuous process of elaboration He has also considered that the dynamics of the international legal process itself can be captured from the perspective of international organizations as vehicles for change in the international system From his early writings Georges Abi Saab approached the United Nations Charter as a blueprint both normative and institutional for a certain type of international society International institutions with all their imperfections continue for him to be the means of realization of the law of cooperation which lies at the heart of his concept of the international system The themes selected for this volume in honour of Professor Georges Abi Saab are intended to reflect his unique and pioneering contribution to the field of international law The contributors are drawn from what he has always considered to be his large family of former students in his forty years of teaching Georges Abi Saab has acted as mentor to generations of students from all over the world who have benefited from his vision insights originality and creative and stimulating use of language The contributors also include colleagues and friends who share a similar vision of the international legal system Storia della storiografia ,2000 Global Studies Directory ,2017-10-02 Publication of the Global Studies Directory represents an unprecedented project in world practice Based on the professional assessment by a large international team of experts the Directory offers information on the most well known scholars political and public figures who have made outstanding contributions to the establishment and development of global studies or made a fundamental impact on the formation of global world The Directory also contains comprehensive information about organizations periodicals and special literature of direct relevance to the theory and practice of globalization and fully demonstrates the state of affairs in the field of study on a global level This project is a continuation of many years of research which first resulted in the publication of the Global Studies Encyclopedic Dictionary the companion publication to the Directory *Actes Du ... Congrès Annuel* African Society of International and Comparative Law. Conference,1996 **D'un protectionnisme l'autre** David Colle,2009 Un monde d entreprises Rapport Anteios 2009 avait soulign en quoi l expression conomie de march tendait faire oublier le r le essentiel et le pouvoir des entreprises L expression libre change ne masque t

elle pas la r alit moins douce d une mise en concurrence Depuis deux si cles le libre change a certes gagn du terrain mais alors que de nombreuses th ories conomiques nous ont d montr ses avantages absolus sur le protectionnisme il semble que ce dernier soit toujours renaissant Le protectionnisme a t il ses raisons que la raison conomique ne veut point reconna tre L conomique bute sur le politique les choix sociaux et culturels de nations ou groupes de nations Il bute aussi sur le temps au sens o la concurrence des biens et services et la circulation du capital sont bien plus rapides que les ajustements du capital humain et des mod les sociaux la concurrence est plus rapide que le reclassement d une ouvri re textile dans le secteur des nanotechnologies ou que l am lioration des conditions de travail dans les mines chinoises Ainsi s explique un protectionnisme dont les formes semblent en perp tuelle volution et qui m ritait pour cela une nouvelle d finition tant il concerne aussi les mouvements de capitaux d information et ceux des hommes Ainsi s explique un protectionnisme qu il ne s agit pas de d fendre ou de condamner mais de comprendre
