NOTE While this edition is good value there is a newer edition *The Unofficial Google Nexus 5 SmartPhone Book Second Edition* The Google designed and LG manufactured Nexus 5 is the first smartphone to run the Android 4.4 KitKat operating system. If you've just bought a Nexus 5 smartphone or you're thinking about buying one you should read this book. The ethos of the book is very much 'What the Nexus 5 can do for you' and it's an unofficial book because we have not colluded with the manufacturers Google or LG during the writing of the book so we can say pretty much whatever we want. And if we say we like it it's because we really do. But we're no fan boys and we don't mind giving a warts n all coverage where it's warranted. So whether you're so far undecided or have already purchased your Nexus 5 buy this book. And look out for similar books at unofficialbooks.info
