 Accident reconstruction utilizes principles of physics and empirical data to analyze the physical electronic video audio and  
 testimonial evidence from a crash to determine how and why the crash occurred how the crash could have been avoided or to  
 determine whose description of the crash is most accurate This process draws together aspects of mathematics physics  
 engineering materials science human factors and psychology and combines analytical models with empirical test data  
 Different types of crashes produce different types of evidence and call for different analysis methods Still the basic  
 philosophical approach of the reconstructionist is the same from crash type to crash type as are the physical principles that  
 are brought to bear on the analysis This book covers a basic approach to accident reconstruction including the underlying  
 physical principles that are used then details how this approach and the principles are applied when reconstructing  
 motorcycle crashes This second edition of Motorcycle Accident Reconstruction presents a thorough systematic and scientific  
 overview of the available methods for reconstructing motorcycle crashes This new edition contains Additional theoretical  
 models examples case studies and test data An updated bibliography incorporating the newest studies in the field Expanded  
 coverage of the braking capabilities of motorcyclists Updated refined and expanded discussion of the decelerations of  
 motorcycles sliding on the ground A thoroughly rewritten and expanded discussion of motorcycle impacts with passenger  
 vehicles Updated coefficients of restitution for collisions between motorcycles and cars A new and expanded discussion of  
 using passenger car EDR data in motorcycle accident reconstruction A new section covering recently published research on  
 post collision frozen speedometer readings on motorcycles A new section on motorcycle interactions with potholes roadway  
 deterioration and debris and expanded coverage of motorcycle falls This second edition of Motorcycle Accident
