

MY FUTURE PROFESSION - A LAWYER.

It is not easy for a school – leaver to decide what profession to choose. Choosing a future profession is very important. Nobody can make it for you, though there are some people who can influence you. Parents, teachers and friends may play an important role in your choice, if they are competent specialists or nice personalities. Choosing a career is not only a matter of future prestige and wealth, a job should be interesting and socially important.

As for me, I want to be a lawyer. I think that a profession of a lawyer is one of the most important in a law – governed state. To be a good specialist, a lawyer must know many laws and their proper application. At the Law Academy future lawyers get knowledge of such subjects as: The Theory of State and Law, Civil Law, Civil Procedure, Criminal Law, Criminal Procedure, Labor Law, Family Law, Operative – Detective Activity and many others. Besides, lawyers are expected to know human psychology, as they deal with different people: children and adults, the sick and the healthy, the poor and the rich, educated and uneducated, victims, witnesses, suspects, first offenders and re – offenders, prisoners and general public.

After graduating from the Law Academy and getting a diploma they can work as advocates, judges, notaries, investigators, custom officers, detectives, traffic officers.

Lawyers can work at the Bar, in the body of the Prosecutor's office, in different courts, in notary offices, in the body of tax inspection as well as in different firms, companies, banks, enterprises, law enforcement agencies.

As for me, I want to become a ... and to work ...

Completing my retelling, I should say that a profession of a lawyer is very interesting, difficult and noble at the same time.
