

My Personal Philosophy Of Education

As a student at Mercy College and an upcoming Teacher, what is important to me is fully gaining knowledge from my education that will prepare me to be the best possible teacher. Being a student can be very tough in many ways. Handling the work workload that is given to us, the number of essays we have to write, and the homework assignments we have to do can bring a lot of tension stress and painful headaches. One thing I learned from the college experience that is going to stick with me for life is that the workload can be very hard to handle, but after it's done and I gain knowledge, I will feel very blessed and very happy with the amount of work that I did. Honestly speaking, that is the best thing I have learned as a student. Doing all the work and gaining knowledge and using that in my everyday life is a privilege. Not all people get to go to school or get to go to college and learn subjects or gain knowledge from teachers or from some of the best professors that the school has to offer. Also, it's very important for us as students to build a connection with our professors and show them every student in the classroom wants to learn from them and wants to be as successful as they can. In my opinion, professors are some of the best people out there; if we really think about it, it is professors who are the reason each year young people like me and other college students from all over the world are graduating and going on to do the jobs that they love. Professors are the reason why people in the world are so successful and knowledgeable, and it honestly hurts me to say that they don't get enough recognition or not enough respect or all the love that they deserve. It is very important for professors to feel the connection with their students and treat them as daughters and sons that they want to see succeed. It is also very important for professors to make sure their students get the education that they need to be successful in life.

Markham, 2023-07-07 Institutions are very precious If any idea is going to persist into the future then it needs an institution to keep it going Each of us comes to understand often only gradually over the decades how some influences from our earlier life have affected us Some will have been inspiring Some will have given us direct models of how to behave or how not to behave Indeed it is often the case that the deeper an influence turns out to have been in the long run the less likely it is that we noticed it at the time it was happening For this reason it has become necessary to find the time to reflect on and express gratitude for the institutions that helped form who we are and the work that we do This collection of essays explores the impact of one institution on twenty five participants twenty five years after we worked together The Institution was Liverpool Hope University College and is now Liverpool Hope University By telling and reflecting on our stories we aim to encourage others to think about their own experiences and ultimately our earnest hope is that a greater awareness of this aspect of university life will help to transform our collective understanding of the nature of universities in particular and of communities institutions or societies in general But there was something special about belonging to a community called Hope *The Creative Artist, Mental Disturbance, and Mental Health* Elliot Benjamin, Ph.D., 2017-04-21 This book describes The Artistic

Theory of Psychology in which a dominant focus is on the successful creative artist and mental health. However, the book also describes the relationship of the creative artist to mental disturbance in various contexts including an innovative academic treatment, personal experiential essays written by the author, excerpts related to the author's semi-autobiographical novel, and illustrative blog excerpts from the author's struggling actor son. The main theme of the book is that through humanistic supportive environments for creative artists, the phenomenon of the successful creative artist in the context of success in both one's creative artistic endeavors as well as a satisfactory adjustment to day to day life can be nourished and enhanced.

Introduction to Teaching Gene E. Hall, Linda F. Quinn, Donna M. Gollnick, 2023-10-11 Grounded in the realities and complexities of today's schools, *Introduction to Teaching: Making a Difference in Student Learning* Fourth Edition is the ideal text for aspiring teachers. Acclaimed authors Gene E. Hall, Linda F. Quinn, and Donna M. Gollnick thoroughly prepare students to make a difference as teachers, presenting first-hand stories and evidence-based practices while offering a student-centered approach to learning. From true-to-life challenges that teachers will face, such as reduced funding, low retention, and changing standards, to the inspiration and joy they will discover throughout their teaching careers, this text paints a realistic picture of the real life of a teacher in a post-pandemic era.

Family Conscience John D. Barbour, 2025-06-17 This memoir explores the role of conscience in four generations during a century of family history. It begins with the suicide of Barbour's maternal grandfather and the impact of this traumatic event. Later chapters describe his interactions with other grandparents, parents, two uncles, siblings, a former spouse, and two sons. *Family Conscience* depicts the values and patterns of self-assessment that members of this family share and also the ways their differing moral views have been influenced by interactions with one another. Barbour interprets how he and family members have understood work and vocation, religious commitments, political and economic values, choices about marriage and raising children, conflicts within the family, and other situations and issues. This thematic family memoir blends the genres of biography, oral interview, autobiography, essay, and cultural history, as Barbour depicts how conscience was transmitted and transformed through the generations.

Leading Learning/Learning
Leading: A Retrospective on a Life's Work Robert Starratt, 2017-06-26 Internationally recognized for his writing on educational leadership and the ethics of educational leadership, Robert J. Starratt brings together a thoughtfully crafted selection of his writing representing key aspects of his life and work, leading to his current thinking on the convergence of school leadership, the professional ethics of educators, and the integrity of the teaching-learning process. This retrospective reveals Starratt's enduring work as probing the foundational intelligibility of the teaching-learning process and its connection to human development of both students and teachers. It exhibits his efforts to focus the leadership of the teaching-learning process on a combination of cognitive insight into the intelligibility of the world, affective dwelling in the particulars of that intelligibility, and the responsibilities one's relationships with the particular might suggest. A new introduction contextualises Starratt's work against key developments in the field. The unique collection of chapters develops various themes from human

resource development to the complexity of curriculum change and from ethical analysis of school organizational structures to the complex dramas in students personal lives and in the classroom The book chronicles Starratt s contributions to the field and his role as a leading scholar who has played a key part in the development of leadership and ethics in education over the course of his career Leading Learning Leading will be of global interest to education leaders and researchers engaged in the field of educational leadership and ethical education

A Personal Philosophy of Education Debbie Barry,2013-10-04 My personal philosophy of education is an eclectic blend of several different philosophies Because of this I am able to adapt to a variety of teaching situations and to apply the concepts of various philosophies in my teaching The purpose of education is to prepare students to be responsible productive members of society and to preserve and perpetuate the important thoughts and ideals of the society As such education simultaneously serves both the individual student and the society Teachers and students have specific roles to play in education and neither group functions effectively without the other group Teachers facilitate student learning and students participate as consumers in their education Curriculum should be structured to give every student a firm foundation in basic subjects and to allow students to diversify their educations according to their strengths and interests Instruction should feature the organic learning associated with mixed age groups so that learning can be accomplished naturally and so that students retain as much education as possible

Essays in Humanistic Mathematics Alvin Murray White,1993 **Lin Yutang and China's Search for Modern Rebirth** Suoqiao Qian,2017-10-20 This book provides a comprehensive examination of the socio cultural and political context of modern China in terms of its interaction with America and the West focusing on the influence of the well known Chinese writer and intellectual Lin Yutang 1895 1976 Offering a unique study of the life and works of Lin Yutang it highlights his intellectual legacy in modern China and considers how his cross cultural life and ideas embodied the modern Chinese cultural experience It notably focuses on Lin s reputation as an outspoken critic of the infringement of human rights during the rise of the Communist regime in China but also on his rediscovery of Chinese cultural resources At a time when China s cultural contributions are increasingly relevant worldwide this book contributes to ongoing critical reflections of Chinese modernity particularly in terms of its intellectual legacies but also to a renewed understanding of the cross cultural interactions between China and America and a re opening the dialogue and search for a new cultural understanding
