Myth And Ideology Creating History In The Bible:

Myth and Ideology Stuart A. West, 2014-11-16 The book seeks to clarify the origins of the Hebrew Bible by an investigation of the biblical text relying on extra biblical evidence particularly archaeology The author s approach is non theological referring to Bible Scholars for many of his sources and using quotes from the Bible and ancient Near Eastern texts to support his conclusions The traditional view of a divinely revealed Pentateuch is examined and the author recounts the development of criticism of that view culminating in the Documentary Hypothesis which is explained in detail The suggestion is made that the Pentateuch and the Deuteronomistic history ending with the destruction of Jerusalem in 586 BCE emanate from several disparate sources The author explains that all the evidence indicates that the earliest sources of the Pentateuch date from sometime between 922 and 722 BCE and he shows that much of the Bible s narrative is myth and reveals a political bias by its writers Often we are reading historical fiction evident from the anachronisms contradictions and repetitions in the text By going to the roots of the Hebrew Bible the book is intended as a personal appraisal of its sources and biblical dogma Examples of the Documentary Hypothesis are noted indicating that the books comprising the Pentateuch Genesis Exodus Leviticus Numbers and Deuteronomy are a combination of what were originally independent texts The linkage of the book of Deuteronomy with the books Joshua Judges 1 and 2 Samuel and 1 and 2 Kings is shown producing what became known as the Deuteronomistic History The author discusses the various theories relating to the emergence of early Israel He also notes the divisions that ultimately split the kingdom and the events that led to the destruction of both the northern kingdom of Israel in 722 BCE and the southern kingdom of Judah in 586 BCE as reflected in the Bible and in extra biblical sources The reader will become aware that the role of archaeology is very pertinent in assessing the historicity of the biblical text Finally the author reviews the development of the biblical text and looks at the Bible in its setting The Creation of History in Ancient Israel Marc Zvi Brettler, 2002-11 Argues that the biblical historians were influenced by typology interpretation of earlier texts satire and ideology shows how with this model we can put together a history of ancient Israel using the Hebrew Bible as a key source *Prophetic Conflicts in Jeremiah, Ezekiel, and Micah* Francesco Arena, 2020-07-24 La 4e de couverture indique Can we consider prophetic conflicts as expressions of a socio religious phenomenon or should we consider them as post exilic creations that serve ideological purposes In his study Francesco Arena investigates false prophecy and prophetic conflicts taking Jeremiah Ezekiel and Micah as the three books in the Bible most concerned with prophesying falsehood and false prophets *Hellenism and the Primary History* Robert Karl Gnuse, 2020-09-30 This collection of essays seeks to demonstrate that many biblical authors deliberately used Classical and Hellenistic Greek texts for inspiration when crafting many of the narratives in the Primary History Through detailed analysis of the text Gnuse contends that there are numerous examples of clear influence from late classical and Hellenistic literature Deconstructing the biblical and Greek works in parallel he argues that there are too many similarities in basic theme

meaning and detail for them to be accounted for by coincidence or shared ancient tropes Using this evidence he suggests that although much of the text may originate from the Persian period large parts of its final form likely date from the Hellenistic era With the help of an original introduction and final chapter Gnuse pulls his essays together into a coherent collection for the first time The resultant volume offers a valuable resource for anyone working on the dating of the Hebrew Bible as well as those working on Hellenism in the ancient Levant more broadly

Writing History, Constructing Religion James G. Crossley, Christian Karner, 2018-01-18 Writing History Constructing Religion presents a much needed interdisciplinary exploration of the significance of debates among historians scholars of religion and cultural theorists over the nature of history to the study of religion The distinguished authors discuss issues related to definitions of history postmodernism critical theory and the impact on the study and analysis of religious traditions exploring the application of writing history from below discussions of truth and objectivity as opposed to power and ideology crises of representation and the place of theory in the historicized study of religion s Addressing conceptual debates in a wide range of historical and empirical contexts the authors critically engage with issues including religious nationalism Nazism Islam and the West secularism religion in post Communist Russia ethnicity and post modernity This book constitutes a significant step towards the self reflexive and interdisciplinary study of religions in history

L'eau, enjeux politiques et théologiques, de Sumer à la Bible Stéphanie Anthonioz, 2009-10-23 This book investigates a corpus of royal inscriptions and literary texts with special emphasis on those that are mythological and biblical stretching over several millennia from the early days of Sumer to the Biblical period in order to determine the ways in which the concept of water was used in particular the way it functions in the political and theological ideology of the time Three literary motifs are the object of a careful study the crossing of water the flood and the water of abundance Though their study shows diversity in evolution transmission and reception it appears that their function is common at the heart of the Mesopotamian political theology of royal mediation

The Bible's First History Robert B. Coote, David Robert Ord, 2018-01-04 This is a book about an ancient writer the J writer the Yahwist who produced a work of political imagination This work is embedded mainly in the first four books of the Bible best known for some of the most popular and influential biblical stories in Genesis and Exodus The purpose of the book is to represent the whole of the original story with attention to its own meaning without the influence of the other literary strands with which it was later supplemented Therefore the work includes a fresh complete translation of the text of the J writer who produced the Bible s first history The translation itself helps to establish more clearly than ever the integrity of the J writer The concern here is WHEN and WHY this history was written especially in light of the concerns for justice and prosperity Throughout it is demonstrated HOW and WHY this history comes from the court of David it is a royal history of David s subjects as though they were descended from pastoral nomads such as Abram Isaac and Jacob It is argued that the intended audience of the history was probably those bedouin who regularly visited the court of David in Hebron and Jerusalem Here is

a bold and brilliant representation of the J writer's composition perhaps as it was originally intended to be read or heard This ancient tour de force takes on new life in the hands of these skilled interpreters Ethnic Myths and Pentateuchal Foundations E. Theodore Mullen, 1997 Proposes a new interpretive model that views the section of the Old Testament as documenting the foundation of a distinct ethnic and religious group Argues that it was composed in Judah during the Persian period in response to threats to the community resulting from foreign domination The emphasis is on the function of the texts avoids the much Dictionary of Biblical Interpretation: K-Z John Haralson Hayes, 1999 Elijah Muhammad & the Ideological Foundation of the Nation of Islam Adib Rashad, 1994 The Honorable Elijah Muhammad laid the foundation for the longest lasting and most enduring I believe the most influential black religious nationalist movement in American history

Critical Issues in Early Israelite History Richard S. Hess, Gerald A. Klingbeil, Paul J. Ray, 2008 The origin of the Israelites is one of the most frequently discussed issues among archaeologists and biblical scholars Only a few decades ago biblical stories such as the Conquest were heralded as confirmed by archaeology But in the 1970s Thomas L Thompson and John Van Seters were in the vanguard of a movement among scholars that was intent on reassessing the historical reliability of the biblical narratives This reassessment gained momentum during the 1980s and 1990s today the mainstream opinion is that there was no Conquest and the Israelites if they can be identified as a national entity or as a people did not arrive in Canaan by means of a military conquest For three days in March 2004 a group of scholars met to consider the state of the question and to provide a response to the predominant academic skepticism a response that considers the biblical text to be an important datum in the construction of the history of the people of Israel To do so the authors of the papers read at the conference take into account both biblical and extrabiblical literary evidence as well as the contributions of archaeology to describe as completely as possible what may be known about the early history of Israel Critical Issues in Early Israelite History publishes the papers read at this conference in the hope that the result will be a balanced portrayal of this watershed event based on all of the currently available evidence The Anchor Bible Dictionary: H-J, 1992 **The London Quarterly & Holborn Review**, 1962 **New International Dictionary of Old Testament Theology & Exegesis** Willem VanGemeren, 1997 A five volume set with more than 5 000 separate entries which give a nuanced understanding of the meaning of words and concepts in the context of the Ancient Near East and of the Old Testament as well as a grasp of similarities and differences among words within the same semantic field or domain Each volume has a separate ISBN Volume I 48170 8 begins with ten essays which provide a guide to the field of biblical hermeneutics and interpretation followed by the lexical dictionary which is continued in Volumes II 20217 5 III 20218 3 and IV 20219 1 Volume IV also contains a topical dictionary and cross references to the lexical volumes The indexes are in Volume V 21311 8 Annotation copyrighted by Book News Inc Portland OR Adam in Myth and History Dexter E. What if important events in ancient history had turned out differently How different might the present century be This is a volume about history not fantasy or fiction Sixteen eminent historians of the Bible discuss not only what might have happened differently but demonstrate how in practice biblical historians go about reconstructing the past Scholarly Book Translation Series ,1961 **The Prism of Scripture** Karl Dietrich Pfisterer,1975 Throughout seventeenth and eighteenth century England and New England the historical doctrinal and prophetic parts of the Bible functioned as the paradigm Thomas S Kuhn of a sophisticated tradition Through an imaginative and skilful use of this paradigm the New England theologian Jonathan Edwards 1703 1758 gave coherence to his critical studies of the Great Awakening showed the limitations of other contemporary historiographical models and formulated his major program of a historical metaphysics as a resolution of the perennial problem of the one and the many in the thought of the West By contrast the Earl of Shaftesbury s 1671 1713 reduction of the paradigm diminished his view of history impoverished his understanding of tradition and limited his view of nature Israel: from Ideological to Territorial Democracy Daniel Judah Elazar,1971 New Dictionary of the History of Ideas Maryanne Cline Horowitz,2005 Contains over seven hundred alphabetized cross referenced entries on major ideas in numerous fields and cultures throughout history and includes a reader s guide
