generation more imaginatively and thoroughly than any other writer takes readers on an incredible journey into the past and the possibility of altering it. It begins with Jake Epping, a thirty-five-year-old English teacher in Lisbon Falls, Maine, who makes extra money teaching GED classes. He asks his students to write about an event that changed their lives, and one essay blows him away: a gruesome, harrowing story about the night more than fifty years ago when Harry Dunning's father came home and killed his mother, his sister, and his brother with a sledgehammer. Reading the essay is a watershed moment for Jake; his life, like Harry's, like America's in 1963, turns on a dime. Not much later, his friend Al, who owns the local diner, divulges a secret: his storeroom is a portal to the past, a particular day in 1958. And Al enlists Jake to take over the mission that has become his obsession: to prevent the Kennedy assassination. So begins Jake's new life as George Amberson in a different world of Ike and JFK and Elvis, of big American cars and sock hops and cigarette smoke everywhere. From the dank little city of Derry, Maine, where there's Dunning business to conduct, to the warmhearted small town of Jodie, Texas, where Jake falls dangerously in love, every turn is leading, eventually, of course, to a troubled loner named Lee Harvey Oswald and to Dallas, where the past becomes heart-stoppingly suspenseful and where history might not be history anymore. Time travel has never been so believable. Or so terrifying. *The Tommyknockers* Stephen King, 2016-08-30

Master storyteller Stephen King presents the classic, terrifying #1 New York Times bestseller about a terrifying, otherworldly discovery and the effects it has on a small town. Late last night, and the night before *Tommyknockers*, *Tommyknockers* knocking at the door. On a beautiful June day, while walking deep in the woods on her property in Haven, Maine, Bobbi Anderson quite literally stumbles over her own destiny and that of the entire town. For the dull, gray metal protrusion she discovers in the ground is part of a mysterious and massive metal object, one that may have been buried there for millennia. Bobbi can't help but become obsessed and try to dig it out, the consequences of which will affect and transmute every citizen of Haven, young and old. It means unleashing extraordinary powers beyond those of mere mortals and certain death for any and all outsiders. An alien hell has now invaded this small New England town, an aggressive and violent malignancy devoid of any mercy or sanity. From a Buick 8 Stephen King, 2007-11-01

For twenty years, the officers in the Pennsylvania State Police Barracks have kept a secret in Shed B: A vintage Buick which lures the troopers to come and take a look. Now young Ned Wilcox, son of the recently deceased officer Curt, has started hanging around the Barracks. One day, he can't resist peeking through the windows. And it's time to share the secret. So the veteran troopers sit Ned down on the smoking bench and tell him every skin-curdling detail from the Buick's arrival to the terrifying light shows and what it sucks in and breathes out. For the Buick is a conduit to another world. As King puts it: when we confront the deep and authentic unknown, we glimpse that place where our familiar universe stops.

Landscape of Fear Tony Magistrale, 1988 One of the very first books to take Stephen King seriously Landscape of Fear originally published in 1988 reveals the source of King s horror in the sociopolitical anxieties of the post Vietnam post Watergate era In this groundbreaking study Tony Magistrale shows how King s fiction transcends the escapism typical of its genre to tap into our deepest cultural fears that the government we have installed through the democratic process is not only corrupt but actively pursuing our destruction that our technologies have progressed to the point at which the individual has now become expendable and that our fundamental social institutions school marriage workplace and the church have beneath their veneers of respectability evolved into perverse manifestations of narcissism greed and violence Tracing King s moralist vision to the likes of Twain Hawthorne and Melville Landscape of Fear establishes the place of this popular writer within the grand tradition of American literature Like his literary forbears King gives us characters that have the capacity to make ethical choices in an imperfect often evil world Yet he inscribes that conflict within unmistakably modern settings From the industrial nightmare of Graveyard Shift to the breakdown of the domestic sphere in The Shining from the techno horrors of The Stand to the religious fanaticism and adolescent cruelty depicted in Carrie Magistrale charts the contours of King s fictional landscape in its first decade
