Critical Thinking Dirk Jahn, Michael Cursio, 2023-12-09 Judgment and critical faculties are central concerns of many Western educational programs. However, the promotion of critical thinking requires specifically developed and didactically coherent concepts. This book therefore attempts to provide a philosophically and empirically sound as well as application oriented introduction to the concept and didactics of critical thinking. Especially the higher education space is defined by critically questioning knowledge and practice and thereby producing new insights. Against the background of this task horizon the theoretical foundations of critical thinking as well as didactic practice strategies for its promotion are conveyed in a low threshold manner within the framework of the introductory volume which can be adapted across subjects. **Teaching Children Science** Joseph Abruscato, 2001 This truncated paperback volume is composed of strategies and techniques for teaching science derived from the fifth edition of Joseph Abruscato's successful text *Teaching Children Science: A Discovery Approach*. Handbook on Teaching Social Issues Ronald W. Evans, 2021-05-01 The *Handbook on Teaching Social Issues* 2nd edition provides teachers and teacher educators with a comprehensive guide to teaching social issues in the classroom. This second edition re-frames the teaching of social issues with a dedicated emphasis on issues of social justice. It raises the potential for a new and stronger focus on social issues instruction in schools. Contributors include many of the leading experts in the field of social studies education. Issues-centered social studies is an approach to teaching history, government, geography, economics, and other subject-related courses through a focus on persistent social issues. The emphasis is on problematic questions that need to be addressed and investigated in depth to increase social understanding, active participation, and social progress. Questions or issues may address problems of the past, present, or future and involve disagreement over facts, definitions, values, and beliefs arising in the study of any of the social studies disciplines or other aspects of human affairs. The authors and editor believe that this approach should be at the heart of social studies instruction.
