

Belarus 500A/520A

World's largest manufacturer of agricultural tractors

in Europe too

Setting new standards in workpiece economy

- Long-term hydraulic system service for workpieces only, not fuel hydraulics
- Outstanding "fuel miser" efficiency
- Extra precision, strength and stability
- Economical engineering & low costs

Reliable "fuel-misers" cost less to buy, operate, service.

Belarus logging power plant

The 500A/520A tractors feature an 1800 rpm, 300 cv, in-line 4-cylinder diesel with long stroke and big bore. That adds up to logging power that gets you through when the going is tough.

Setup to run-down fuel supply

New owners are surprised they didn't see any of the extra fuel they took to the field for a full day's hard work. The 500A/520A fuel efficiency is a big reason many Belarus owners have bought their second and third.

4 speeds forward — differential lock

With 4 speeds forward — 1.27 to 15.09 mph — and 2 reverse, you can match speed and power to the job for maximum work and fuel economy. A manually engaged differential lock is standard on Belarus 500A/520A tractors.

Exact Work, Category II

Use hydraulics, down pressure, draft and position control at your selection... responsive three-position upper link saving for quality work and fuel economy.

Full Hydraulics — three remote outlets

Hydraulic system pumps 10.5 gpm, 1800 psi at 1800 engine rpm. Pump can be disengaged when hydraulic power is not being used, thus saving fuel and hp that is directed to the main job... exclusive with Belarus.

PTO — Independent, 540 and ground speed RPM

Lifetime oil filter — no cartridges to buy

Standard equipment on all Belarus tractors is the optional oil filter. Periodically you remove the cover, drain it, clean it and keep using it. One time, replaceable oil filter mount with no filters to buy.

Easy on farm service, easy repair

Time-saving convenience and important cost savings in labor costs result from straightforward maintenance work. Most everything that needs attention is out where you can see it and get at it — including the complete hydraulic system.

Owners report long engine life

Model 500 and 520 owners are reporting long life, low oiling and low maintenance/repair costs. Numerous owners have reported more than 5,000 hours on their engines with out all but oil and air filter major repair. The rugged fuel, low speed (1800 rpm) diesel stands up for years of rugged logging.

Easy handle, easy ride

Adjustable seat with torsion bars and shock absorber... spring-mounted front wheels... power-assist steering, oil and torque wheel provide operator comfort and handling ease.

Common sense engineering adds up to overall economy and long life dependability.
