As professors in the United States are being paid less and less to teach more and more undergraduates prospective students need all the information they can get about receiving their tuition dollars worth About to choose a college About to make an investment that might exceed a quarter million dollars Worried about ideological indoctrination on university campuses Then you need to know a lot about professors There has been perhaps no worse time to be a scholar in the United States than now The misery experienced by the professoriate has immediate and dramatic effects on the education that undergraduates receive *As Professors Lay Dying* seeks to help you answer the following questions 1 How important are professors to my college education 2 How seriously do they take the responsibility of teaching undergraduates 3 What kind of professors are actually in the classroom working with American coeds 4 Is ideological indoctrination a real danger to the nation's matriculated youth 5 What kind of schools should a discerning college shopper look for 6 Ultimately why are professors so

essential to the delivery of a first class education Colleges don't advertise the state of their faculty but it might be the most important factor in your decision This book pulls back the curtain on the profession that shapes the minds of the next generation

**Catholic Social Learning, Expanded Edition** Roger Bergman, 2023-12-20 The award winning and widely read first edition of *Catholic Social Learning Educating the Faith That Does Justice* published in 2011 described the critical edge of the tradition of justice pedagogy in Catholic higher education at the end of the first decade of the twenty first century But living traditions change in response to new challenges and develop their own resources more fully The most obvious and compelling development in recent years has been the publication in 2015 of Pope Francis landmark encyclical *Laudato Si On Care for Our Common Home* the occasion for the new chapter length afterword to this expanded edition of *Catholic Social Learning* The urgent imperative to defend creation is a major but not the only reason for a new edition Two new chapters on the many forms of shame as a pedagogical issue and on the Book of Job and belief in a just world add spiritual and theological depth to the original assessment of more than a decade ago Those three additions comprise the totally new Part IV *The Critical Edge of the Tradition* A new preface sets the argument in the context of current controversies over the place of painful emotions in educational settings

*Academically Adrift* Richard Arum, Josipa Roksa, 2011-01-15 In spite of soaring tuition costs more and

more students go to college every year A bachelor s degree is now required for entry into a growing number of professions And some parents begin planning for the expense of sending their kids to college when they re born Almost everyone strives to go but almost no one asks the fundamental question posed by Academically Adrift are undergraduates really learning anything once they get there For a large proportion of students Richard Arum and Josipa Roksa s answer to that question is a definitive no Their extensive research draws on survey responses transcript data and for the first time the state of the art Collegiate Learning Assessment a standardized test administered to students in their first semester and then again at the end of their second year According to their analysis of more than 2 300 undergraduates at twenty four institutions 45 percent of these students demonstrate no significant improvement in a range of skills including critical thinking complex reasoning and writing during their first two years of college As troubling as their findings are Arum and Roksa argue that for many faculty and administrators they will come as no surprise instead they are the expected result of a student body distracted by socializing or working and an institutional culture that puts undergraduate learning close to the bottom of the priority list Academically Adrift holds sobering lessons for students faculty administrators policy makers and parents all of whom are implicated in promoting or at least ignoring contemporary campus culture Higher education faces crises on a number of fronts but Arum and Roksa s report that colleges are failing at their most basic mission will demand the attention of us all
