

My Personal Philosophy Of Education

As a student at Mercy College and an upcoming Teacher, what is important to me is fully gaining knowledge from my education that will prepare me to be the best possible teacher. Being a student can be very tough in many ways. Handling the work workload that is given to us, the number of essays we have to write, and the homework assignments we have to do can bring a lot of tension stress and painful headaches. One thing I learned from the college experience that is going to stick with me for life is that the workload can be very hard to handle, but after it's done and I gain knowledge, I will feel very blessed and very happy with the amount of work that I did. Honestly speaking, that is the best thing I have learned as a student. Doing all the work and gaining knowledge and using that in my everyday life is a privilege. Not all people get to go to school or get to go to college and learn subjects or gain knowledge from teachers or from some of the best professors that the school has to offer. Also, it's very important for us as students to build a connection with our professors and show them every student in the classroom wants to learn from them and wants to be as successful as they can. In my opinion, professors are some of the best people out there; if we really think about it, it is professors who are the reason each year young people like me and other college students from all over the world are graduating and going on to do the jobs that they love. Professors are the reason why people in the world are so successful and knowledgeable, and it honestly hurts me to say that they don't get enough recognition or not enough respect or all the love that they deserve. It is very important for professors to feel the connection with their students and treat them as daughters and sons that they want to see succeed. It is also very important for professors to make sure their students get the education that they need to be successful in life.
