N6 Previous Question Paper N Memo:

An Inconvenient Genocide Geoffrey Robertson, 2014-10-16 The most controversial question that is still being asked about the First World War was there an Armenian genocide will come to a head on 24 April 2015 when Armenians worldwide will commemorate its centenary and Turkey will deny that it took place claiming that the deaths of over half of the Armenian race were justified This has become a vital international issue Twenty national parliaments in democratic countries have voted to recognise the genocide but Britain and the USA continue to equivocate for fear of alienating their NATO ally Geoffrey Robertson QC condemns this hypocrisy and in *An Inconvenient Genocide* he proves beyond reasonable doubt that the horrific events in the Ottoman Empire in 1915 constitute the crime against humanity that is today known as genocide He explains how democracies can deal with genocide denial without infringing free speech and makes a major contribution to understanding and preventing this worst of all crimes His renowned powers of advocacy are on full display as he condemns all those from Sri Lanka to the Sudan from Old Anatolia to modern Syria and Iraq who try to justify the mass murder of children and civilians in the name of military necessity or religious fervour Sessional Papers Great Britain. spectacular growth But the authors of this paper maintain that this policy is showing signs of being outmoded The time has come the authors argue for the Korean government to stop managing the economy s structural development and to redefine the responsibilities of business and government Under this proposed compact the allocation of resources would shift from the government to the private industrial and financial sectors The transformation of the government bureaucracy from an ad hoc policy role to one of a transparent and predictable regulator is a key to the success of this undertaking These new directions would present the government with enormous challenges Greater competitive discipline and regulatory oversight would be required While dealing with the complexities of the transition the government would have to maintain macroeconomic stability and the momentum of savings and investment For comparison the study examines the industrial economies of France Germany Japan and the United States which underwent similar shifts *Index to IEEE Publications* Institute of Electrical and Electronics Engineers, 1979 Issues for 1973 cover the entire IEEE technical literature
