Acker, 2020-09-22 For more than four centuries cultural preferences literary values critical contexts and personal tastes have governed readers responses to Shakespeare's sonnets Early private readers often considered these poems in light of the religious political and humanist values by which they lived Other seventeenth and eighteenth century readers such as stationers and editors balanced their personal literary preferences against the imagined or actual interests of the literate public to whom they marketed carefully curated editions of the sonnets often successfully Whether public or private however many disparate sonnet interpretations from the sonnets first two centuries in print have been overlooked by modern sonnet scholarship with its emphasis on narrative and amorous readings of the 1609 sequence *First Readers of Shakespeare's Sonnets* reintroduces many early readings of Shakespeare's sonnets arguing that studying the priorities and interpretations of these previous readers expands the modern critical applications of these poems thereby affording them numerous future applications This volume draws upon book history manuscript studies and editorial theory to recover four lost critical approaches to the sonnets highlighting early readers interests in Shakespeare's classical adaptations political applicability religious themes and rhetorical skill during the seventeenth and eighteenth centuries *Conceptual Foundations of Radical Behaviorism* Jay Moore, 2008 *Conceptual Foundations of Radical Behaviorism* is intended for advanced undergraduate or

The Circular Pilgrimage John R.

Rosenberg,1994 The Circular Pilgrimage approaches Spanish autobiography from the perspective that no significant formal distinctions exist between fictional and nonfictional discourse It demonstrates that formulas as diverse as those created by Santa Teresa and Cela s fictional Pascual Duarte depart from the same narrative tradition that attempts to transform the creative subject by means of aesthetic principles The autobiographers compose their stories both to produce and to verify a personal transformation In both spiritual autobiography and secular confessions the conversion is developed in the form of Christianized romance that includes the stages of fall exile and redemption The author shows how this underlying structure is undermined by the autobiographers themselves The promise of renovation through art is revoked as the language that makes the transformation possible is shown to be unstable and therefore incapable of representing an image of either the old or the supposed new self The writer becomes a pilgrim who never arrives at Judea *The Oxford Encyclopedia of American Literature* Jay Parini,2004 The Encyclopedia of American Literature gathers together 350 essays from over 190 leading scholars on the whole of American literature from European discovery to the present At the core of the Encyclopedia lie 250 essays on poets playwrights essayists and novelists Figures such as Whitman Melville Faulkner Frost and Morrison are discussed in detail with each examined in the context of his or her times an assessment of the writer s current reputation a bibliography of major works and a list of major critical and biographical works about the writer Fifty entries on major works such as Moby Dick Song of Myself Walden The Great Gatsby The Waste Land Their Eyes Were Watching God Death of a Salesman and Beloved place the work in its historical context and offer a range of possibilities with regard to critical approach The Encyclopedia also contains essays on literary movements periods and themes pulling together a broad range of information and making connections between them Each entry has its own primary and annotated secondary bibliography and a system of cross references helps readers locate information with ease The Encyclopedia of American Literature is an outstanding reference source for students studying authors or particular pieces of literature libraries looking for one comprehensive source and readers interested in American literature its authors and its connection with various areas of
