Life Sciences Memorandum Grade 2014 November:

Chinese Research Perspectives on Educational Development, Volume 4 Dongping Yang, 2019-09-24 This collection of articles selected from Blue Book of Chinese Education 2015 published in Chinese reviews the condition of China's education development in 2014. The wide range of topics covered in this volume fall under two major themes: reform and equity. Chapters on reform focus on the college entrance exam Gaokao, secondary vocational education, senior high school education provincially and locally funded colleges, private universities, and junior high school admissions policies. Chapters in the second half of the book provide readers with an in-depth account of efforts made to improve equity in special and early childhood education, study abroad preparation classes, and rural education. The appendix includes a report of budgetary expenditure on education and a chronology of major events.

Breaking Point Rebecca Schwartz Greene, 2023-01-03 WINNER SOCIETY FOR MILITARY HISTORY DISTINGUISHED BOOK AWARDS FIRST BOOK This book informs the public for the first time about the impact of American psychiatry on soldiers during World War II. *Breaking Point* is the first in-depth history of American psychiatry in World War II. Drawn from unpublished primary documents, oral histories, and the author's personal interviews and correspondence over years with key psychiatric and military policymakers, it begins with Franklin Roosevelt's endorsement of a universal Selective Service psychiatric examination followed by Army and Navy pre and post induction examinations. Ultimately, 2.5 million men and women were rejected or discharged from military service on neuropsychiatric grounds. Never before or since has the United States engaged in such a program. In designing Selective Service Medical Circular No. 1, psychiatrist Harry Stack Sullivan assumed psychiatrists could predict who might break down or falter in military service or even in civilian life thereafter. While many American and European psychiatrists questioned this belief, and huge numbers of American psychiatric casualties soon raised questions about screening's validity, psychiatric and military leaders persisted. In 1942 and 1943, in endorsing ever tougher screening, little else. Soon families complained of fathers and teens being drafted instead of being identified as psychiatric 4Fs, and Blacks and Native Americans among others complained of bias. A frustrated General George S. Patton famously slapped two malingering neuropsychiatric patients in Sicily, a sentiment shared by Marshall and Eisenhower though they favored a tamer style. Yet psychiatric rejections, evacuations, and discharges mounted. While psychiatrist Roy Grinker and a few others treated soldiers close to the front in Tunisia in early 1943, this was the exception. But as demand for manpower soared and psychiatrists finally went to the field and saw that combat itself, not predisposition, precipitated breakdown, leading military psychiatrists switched their emphasis from screening to prevention and treatment. But this switch was too little, too late, and slowed by a year-long series of Inspector General investigations, even while numbers of psychiatric casualties soared. Ironically, despite and even partly because of psychiatrists' wartime performance plus the emotional toll of war, postwar America soon witnessed a dramatic growth in numbers, popularity, and influence of the profession, culminating in the National Mental Health Act, 1946. But

The education wars have been demoralizing for teachers After the Education Wars helps us to see a better way forward

Cathy N Davidson The New York Times Book Review After the Education Wars is an important book that points the way to genuine reform Diane Ravitch author of Reign of Error and The Death and Life of the Great American School System A bestselling business journalist critiques the top down approach of popular education reforms and profiles the unexpected success of schools embracing a nimbler more democratic entrepreneurialism In an entirely fresh take on school reform business journalist and bestselling author Andrea Gabor argues that Bill Gates Eli Broad and other leaders of the prevailing education reform movement have borrowed all the wrong lessons from the business world After the Education Wars explains how the market based measures and carrot and stick incentives informing today s reforms are out of sync with the nurturing culture that good schools foster and contrary to popular belief at odds with the best practices of thriving twenty first century companies as well These rich detailed stories of real reform in action illustrate how enduring change must be deeply collaborative and relentlessly focused on improvement from the grass roots up lessons also learned from both the open source software and quality movements The good news is that solutions born of this philosophy are all around us from Brockton Massachusetts where the state s once failing largest high school now sends most graduates to college to Leander Texas a large district where school improvement spurred by the ideas of quality guru W Edwards Deming has become a way of life A welcome exception to the doom and gloom canon of education reform After the Education Wars makes clear that what s needed is not more grand ideas but practical and informed ways to grow the best ones that are already transforming schools

Teach Janice Koch,2019-01-02 Teach is a concise introduction to education that challenges students preconceived notions of teaching in order to transform them into reflective practitioners Empathizing with the difficulties students face as they move from the college classroom to their own classrooms revered author Janice Koch invites readers to both reflect on their own dispositions for teaching and look outside of themselves to the demands of the profession making the philosophy of teaching and learning accessible and relevant The Fourth Edition emphasizes the changing student population and the role of technology and globalization in the field while also including the Interstate Teacher Assessment and Support Consortium InTASC standards correlating with each chapter s content With the guidance of this supportive text students will gain vital exposure by engaging with professional standards from the very start of their career

Mesozoic Sea Dragons Olivier Rieppel,2019-04-24 An extensive illustrated study of the ancient fish and marine reptiles who once lived in a tropical lagoon that is now a Swiss mountain Told in rich detail and with gorgeous color recreations this is the story of marine life in the age before the dinosaurs During the Middle Triassic Period 247 237 million years ago the mountain of Monte San Giorgio in Switzerland was a tropical lagoon Today it is a UNESCO World Heritage Site because it boasts an astonishing fossil record of marine life from that time Attracted to an incredibly diverse and well preserved set of fossils

Swiss and Italian paleontologists have been excavating the mountain since 1850 Synthesizing and interpreting over a century of discoveries through a critical twenty first century lens paleontologist Olivier Rieppel tells for the first time the complete story of the fish and marine reptiles who made that long ago lagoon their home Through careful analysis and vividly rendered recreations he offers memorable glimpses of not only what Thalattosaurs Protorosaurs Ichthyosaurs Pachypleurosaurs and other marine life looked like but how they moved and lived in the lagoon An invaluable resource for specialists and accessible to all this book is essential to all who are fascinated with ancient marine life Praise for Mesozoic Sea Dragons The most comprehensive review of the Middle Triassic marine faunas of Monte San Giorgio published to date It synthesizes a vast body of literature in an accessible way and provides an informative beautifully illustrated review of the vertebrate life that once thrived in the ancient lagoon It also delivers a fascinating account of the history of fossil discoveries of this remarkable site
