Teaching History with Big Ideas S. G. Grant, Jill M. Gradwell, 2010-07-16 In the case studies that make up the bulk of this book middle and high school history teachers describe the decisions and plans and the problems and possibilities they encountered as they ratcheted up their instruction through the use of big ideas Framing a teaching unit around a question such as Why don t we know anything about Africa offers both teacher and students opportunities to explore historical actors ideas and events in ways both rich and engaging Such an approach exemplifies the construct of ambitious teaching whereby teachers demonstrate their ability to marry their deep knowledge of subject matter students and the school context in ways that fundamentally challenge the claim that history is boring **Why Learn History (When It's Already on Your Phone)** Sam Wineburg, 2018-09-17 A look at how to teach history in the age of easily accessible but not always reliable information

Let's start with two truths about our era that are so inescapable as to have become clichés. We are surrounded by more readily available information than ever before. And a huge percent of it is inaccurate. Some of the bad info is well meaning but ignorant. Some of it is deliberately deceptive. All of it is pernicious. With the Internet at our fingertips, what's a teacher of history to do? In *Why Learn History When It's Already on Your Phone*, professor Sam Wineburg has the answers, beginning with this: We can't stick to the same old read-the-chapter-answer-the-question snoozefest. If we want to educate citizens who can separate fact from fake, we have to equip them with new tools. Historical thinking, Wineburg shows, has nothing to do with the ability to memorize facts. Instead, it's an orientation to the world that cultivates reasoned skepticism and counters our tendency to confirm our biases. Wineburg lays out a mine-filled landscape, but one that, with care, attention, and awareness, we can learn to navigate. The future of the past may rest on our screens. But its fate rests in our hands. Praise for *Why Learn History When It's Already on Your Phone*. If every K-12 teacher of history and social studies read just three chapters of this book, *Crazy for History: Changing History One Classroom at a Time*, and *Why Google Can't Save Us*, the ensuing transformation of our populace would save our democracy. James W. Lowen, author of *Lies My Teacher Told Me* and *Teaching What Really Happened*. A sobering and urgent report from the leading expert on how American history is taught in the nation's schools. A bracing, edifying, and vital book. Jill Lepore, *New Yorker* staff writer and author of *These Truths*. Wineburg is a true innovator who has thought more deeply about the relevance of history to the Internet and vice versa than any other scholar I know. Anyone interested in the uses and abuses of history today has a duty to read this book. Niall Ferguson, senior fellow, Hoover Institution, and author of *The Ascent of Money* and *Civilization*. *The Best of History Web Sites*. Thomas Daccord, 2007 Educator and technology trainer. Thomas Daccord has painstakingly selected and compiled this guide to the best history sites for use in high school, academic, and public libraries. *The Best of History Web Sites* is the quickest path to a rich variety of content, including multimedia presentations, subject gateways, lesson plans, and activities, primary resources, interactive quizzes, and games, virtual tours, maps, and atlases, statistical collections, and more. [Cracking the Virginia SOL](#). Jeff Mandell, Princeton Review (Firm), 2001-02-20. The Princeton Review realizes that acing the U.S. History exam is very different from getting straight A's in school. The Princeton Review doesn't try to teach students everything there is to know about U.S. history; only the techniques they'll need to score higher on the exam. There's a big difference. In *Cracking the Virginia SOL EOC U.S. History*, TPR will teach test takers how to think like the test makers and remember important historical facts using TPR's Big Picture approach to studying. Eliminate incorrect answer choices by using Process of Elimination and other techniques. Master the most frequently tested material with TPR's U.S. History Hit Parade. Test historical knowledge with review questions that cover each time period tested. This book includes 2 full-length simulated exams. All of TPR's sample test questions are just like the ones test takers will see on the actual End of Course U.S. History exam, and TPR fully explains every solution. Contents include: The Mystery Exams, Structure and Strategies II, The U.S. History
