Management: Theory and Practice Alexander Chernev, 2019-01-01 Strategic Marketing Management Theory and Practice offers a systematic overview of the fundamentals of marketing theory defines the key principles of marketing management and presents a value based framework for developing viable market offerings The theory presented stems from the view of marketing as a value creation process that is central to any business enterprise The discussion of marketing theory is complemented by a set of practical tools that enable managers to apply the knowledge contained in the generalized frameworks to specific business problems and market opportunities The information on marketing theory and practice contained in this book is organized into eight major parts The first part defines the essence of marketing as a business discipline and outlines an overarching framework for marketing management that serves as the organizing principle for the information presented in the rest of the book Specifically we discuss the role of marketing management as a value creation process the essentials of marketing strategy and tactics as the key components of a company s business model and the process of developing an actionable marketing plan Part Two focuses on understanding the market in which a company operates Specifically we examine how consumers make choices and outline the main steps in the customer decision journey that lead to the purchase of a company s offerings We further discuss the ways in which companies conduct market research to gather market insights in order to make informed decisions and develop viable courses of action Part Three covers issues pertaining to the development of a marketing strategy that will guide the company s tactical activities Here we focus on three fundamental aspects of a company s marketing strategy the identification of target customers the development of a customer value proposition and the development of a value proposition for the company and its collaborators The discussion of the strategic aspects of marketing management includes an in depth analysis of the key principles of creating market value in a competitive context The next three parts of the book focus on the marketing tactics viewed as a process of designing communicating and delivering value Part Four describes how companies design their offerings and specifically how they develop key aspects of their products services brands prices and incentives In Part Five we address the ways in which companies manage their marketing communication and the role of personal selling as a means of persuading customers to choose purchase and use a company s offerings Part Six explores the role of distribution channels in delivering the company

s offerings to target customers by examining the value delivery process both from a manufacturer's and a retailer's point of view. The seventh part of the book focuses on the ways in which companies manage growth. Specifically, we discuss strategies used by companies to gain and defend market position and in this context address the issues of pioneering advantage, managing sales growth and managing product lines. We further address the process of developing new market offerings and the ways in which companies manage the relationship with their customers. The final part of this book presents a set of tools that illustrate the practical application of marketing theory. Specifically, Part Eight delineates two workbooks: a workbook for segmenting the market and identifying target customers and a workbook for developing the strategic and tactical components of a company's business model. This part also contains examples of two marketing plans: one dealing with the launch of a new offering and the other focused on managing an existing offering.

Marketing Performativity Katy Mason, Hans Kjellberg, Johan Hagberg, 2018-10-11. *Marketing Performativity: Theories, practices and devices* addresses concerns about the theory-practice gap so often discussed by marketing scholars and indeed reframes this gap by asking how is marketing theory performative? How does marketing theory shape action? Who uses it in practice and to what effects? The individual contributions in this book look at how marketing theories are used in practice and what this means for our understanding of the practicing-theorising landscape of marketing. The book begins by considering what performativity is and how this concept is used in the marketing literature. It then considers three themes concerning the performativity of marketing that emerge from the contributions before presenting ten empirical studies that ask how, why and to what effect marketing theories are used and performed in marketing practice. The book also summarises the implications of three themes and sketches research areas for further developing our understanding of the performativity of marketing. This book was originally published as a special issue of the *Journal of Marketing Management*.

A Critical Analysis of Current Marketing Theory Isha K. D. Singh, 1997. ***Journal of Public Policy & Marketing : JPP&M***, 2010. *Marketing Theory and Practice in Romania* Nicolae Alexandru Pop, 2025-08-24. Over the last three decades the Romanian economy transitioned from a centralized non-market economy that outlawed private property to a thriving free market economy. During this time it had to overcome non-marketed mentalities, the novelty of private ownership, develop a civil society, absorb numerous political shocks, contend with the global digital revolution and compete with foreign rivals. This book explores the marketing experiences in Romania over this period to provide insights for other developing nations such as Asia, Africa and South America. It provides a blend of marketing concepts and analytical tools as well as case studies. It explores such topics as artificial intelligence, neuromarketing, introduction to international marketing, relationship marketing, sports marketing, retail marketing, marketing in family businesses and tourism marketing to name a few. This book is useful for researchers, scholars, academics, students and practitioners interested in international marketing and marketing strategy, particularly for developing nations.
