*Exile and Embrace* Anthony Santoro, 2013-07-09 With passion and precision *Exile and Embrace* examines the key elements of the religious debates over capital punishment and shows how they reflect the values and self understandings of contemporary Americans Santoro demonstrates that capital punishment has relatively little to do with the perpetrators and much more to do with those who would impose the punishment Because of this he convincingly argues we should focus our attention not on the perpetrators and victims as is typically the case in debates pro and con about the death penalty but on ourselves and on the mechanisms that we use to impose or oppose the death penalty An important book that will appeal to those involved in the death penalty debate and to general religious studies and American studies scholars as well

**Imperative of Economic Growth in the Eurozone: Competitiveness, Capital Flows and Structural**

**Reforms** Lubor Lacina, Antonin Rusek, 2018-01-15 European economic recovery appears to be taking hold So is the European crisis over The acute phase of the crisis passed however a number of medium and long term issues remain The policies of internal devaluations are working albeit slowly to restore competitiveness in the countries most affected by the crisis However growth remains at best sluggish The medium and long term outlook remains highly uncertain fomenting social tensions and endangering political stability The restoration of economic dynamism is increasingly perceived as the answer to the question of the European future economically politically and socially There is a broad consensus that dynamic structural reforms and the restoration of competitiveness at the level of the global economy are key answers to current European challenges However whatever the form these may take the transfer of resources is implicit and seemingly necessary to underpin the current structure of eurozone This indeed raises the question of governance both fiscal and monetary After all the provision of resources implies an allocation and it is hard to imagine that resources will be provided to the common pool unless the providers have some say with respect to allocation And that requires some form of common i e centralized decision making procedures in all likelihood exceeding the common understanding of the *acquis communautaire* as it exists today i e some form of the effective political arrangement In this context the basic idea which connects all contributions in this volume is the analysis of the problems which affected the Eurozone in the past decade and the challenges and dilemmas the Eurozone will face in the coming years
